OFFICIAL TERMS OF OFFERING

This section sets forth the description of certain of the terms of the Bonds as well as the terms of offering with which all bidders and bid proposals are required to comply, as follows:

The Bonds to be offered are the following:

GENERAL OBLIGATION SCHOOL BONDS, SERIES 2020, in the principal amount of \$6,350,000* dated the date of delivery in the denomination of \$5,000 or multiples thereof, and maturing as shown on the front page of the official statement.

ADJUSTMENTS TO PRINCIPAL AMOUNT AFTER DETERMINATION OF BEST BID. The aggregate principal amount of the Bonds, and each scheduled maturity thereof, are subject to increase or reduction by the Issuer or its designee after the determination of the Successful Bidder. The Issuer may increase or decrease each maturity in increments of \$5,000. Interest rates specified by the Successful Bidder for each maturity will not change. Final adjustments shall be in the sole discretion of the Issuer.

The dollar amount bid by the Successful Bidder may be changed if the aggregate principal amount of the Bonds, as adjusted as described below, is adjusted, however the interest rates specified by the Successful Bidder for all maturities will not change. The Issuer's financial advisor will make every effort to ensure that the percentage net compensation to the Successful Bidder (the percentage resulting from dividing (i) the aggregate difference between the offering price of the Bonds to the public and the price to be paid to the Issuer (not including accrued interest), less any bond insurance premium and credit rating fee, if any, to be paid by the Successful Bidder, by (ii) the principal amount of the Bonds) does not increase or decrease from what it would have been if no adjustment was made to principal amounts shown in the maturity schedule.

Optional Redemption: The Bonds maturing after May 1, 2027, may be called for redemption by the Issuer and paid before maturity on said date or any date thereafter, from any funds regardless of source, in whole or from time to time in part, in any order of maturity and within an annual maturity by lot. The terms of redemption shall be par, plus accrued interest to date of call.

Interest: Interest on said Bonds will be payable on November 1, 2020 and semiannually on the 1st day of May and November thereafter. Interest shall be payable by check or draft of the Paying Agent mailed to the persons who were registered owners thereof as of the fifteenth day of the month immediately preceding the Interest Payment Date, to the addresses appearing on the registration books maintained by the Paying Agent or to such other address as is furnished to the Paying Agent in writing by a registered owner.

Book Entry System: The Bonds will be issued by means of a book entry system with no physical distribution of certificates made to the public. The Bonds will be issued in fully registered form and one certificate, representing the aggregate principal amount of the Bonds maturing in each year, will be registered in the name of Cede & Co. as nominee of The Depository Trust Company ("DTC"), New York, New York, which will act as securities depository of the Bonds. Individual purchases of the Bonds may be made in the principal amount of \$5,000 or any multiple thereof of a single maturity through book entries made on the books and records of DTC and its participants. Principal and interest are payable by the Issuer to DTC or its nominee as registered owner of the Bonds. Transfer of principal and interest payments to participants of DTC will be the responsibility of such participants and other nominees of beneficial owners. The successful bidder, as a condition of delivery of the Bonds, will be required to deposit the certificates with DTC.

Good Faith Deposit: A Good Faith Deposit ("Deposit") in the form of a certified or cashier's check or a wire in the amount of \$63,500* for the Bonds, payable to the order of the Issuer, is required for each bid to be considered. If a check is used, it must accompany each bid. If a wire is to be used, it must be received by the Issuer not later than two hours after the time stated for receipt of bids. The Financial Advisor or the Issuer will provide the apparent winning bidder (the "Purchaser") with wiring instructions, by facsimile and email, within 10 minutes of the stated time when bids are due. If the wire is not received at the time indicated above, the Issuer will abandon its plan to award to the Purchaser, and will contact the next highest bidder received and offer said bidder the opportunity to become the Purchaser, on the terms as outlined in said bidder's bid, so long as said bidder submits a good faith wire within two hours of the time offered. The Issuer will not award the Bonds to the Purchaser absent receipt of the Deposit prior to action awarding the Bonds. No interest on the Deposit will accrue to the Purchaser. The Deposit will be applied to the purchase price of the Bonds. In the event the Purchaser fails to honor its bid, the Deposit will be retained by the Issuer.

Form of Bids: All bids shall be unconditional for the entire issue of Bonds for a price of not less than 100% of par, plus accrued interest, and shall specify the rate or rates of interest in conformity to the limitations set forth herein. Bids must be submitted on or in substantial compliance with the Official Bid Form provided by the Issuer or through the Internet Bid

Neither the Issuer nor its agents will be responsible for bids submitted by facsimile transmission not received in accordance with the provisions of this Official Terms of Offering. Neither the Issuer nor its agents will assume liability for the inability of the bidder to reach the above name fax number prior to the time of sale specified above. Time of receipt shall be the time recorded by the facsimile operator.

Rates of Interest: The rates of interest specified in the bidder's proposal must conform to the limitations following:

All Bonds of each annual maturity must bear the same interest rate.

Rates of interest bid may be in multiples of 1/8th, 1/20th, or 1/100th of 1%.

Minimum coupon of 3%.

Delivery: The Bonds will be delivered to the Purchaser via FAST delivery with the Paying Agent holding the Bonds on behalf of DTC, against full payment in immediately available cash or federal funds. The Bonds are expected to be delivered within sixty days after the sale. Should delivery be delayed beyond sixty days from date of sale for any reason except failure of performance by the Purchaser, the Purchaser may withdraw his bid and thereafter his interest in and liability for the Bonds will cease. (When the Bonds are ready for delivery, the Issuer may give the successful bidder five working days' notice of the delivery date and the Issuer will expect payment in full on that date, otherwise reserving the right at its option to determine that the bidder has failed to comply with the offer of purchase.)

Establishment of Issue Price:

(a) The winning bidder shall assist the Issuer in establishing the issue price of the Bonds and shall execute and deliver to the Issuer at Closing an "issue price" or similar certificate setting forth the reasonably expected initial offering price to the public or the sales price or prices of the Bonds, together with the supporting pricing wires or equivalent communications, substantially in the form attached hereto as Exhibit A, with such modifications as may be appropriate or necessary, in the reasonable judgment of the winning bidder, the Issuer and Bond Counsel. All communications required of the Issuer under this Official Terms of Offering to establish the issue price of the Bonds may be communicated on behalf of the Issuer by the Issuer's municipal advisor identified herein and any notice or report to be provided to the Issuer may be provided to the Issuer's municipal advisor.

(b) The Issuer intends that the provisions of Treasury Regulation Section 1.148-1(f)(3)(i) (defining “competitive sale” for purposes of establishing the issue price of the Bonds) will apply to the initial sale of the Bonds (the “competitive sale requirements”) because:

- (1) the Issuer shall disseminate this Official Term of Offering to potential underwriters in a manner that is reasonably designed to reach potential underwriters;
- (2) all bidders shall have an equal opportunity to bid;
- (3) the Issuer may receive bids from at least three underwriters of municipal bonds who have established industry reputations for underwriting new issuances of municipal bonds; and
- (4) the Issuer anticipates awarding the sale of the Bonds to the bidder who submits a firm offer to purchase the Bonds at the highest price (or lowest interest cost), as set forth in this Official Terms of Offering.

Any bid submitted pursuant to this Official Terms of Offering shall be considered a firm offer for the purchase of the Bonds, as specified in the bid.

(c) In the event that the competitive sale requirements are not satisfied, the Issuer shall so advise the winning bidder. The Issuer may determine to treat (i) the first price at which 10% of a maturity of the Bonds (the “10% test”) is sold to the public as the issue price of that maturity and/or (ii) the initial offering price to the public as of the sale date of any maturity of the Bonds as the issue price of that maturity (the “hold-the-offering-price rule”), in each case applied on a maturity-by-maturity basis. The winning bidder shall advise the Issuer if any maturity of the Bonds satisfies the 10% test as of the date and time of the award of the Bonds. The Issuer shall promptly advise the winning bidder, at or before the time of award of the Bonds, which maturities of the Bonds shall be subject to the 10% test or shall be subject to the hold-the-offering-price rule. Bids will not be subject to cancellation in the event that the Issuer determines to apply the hold-the-offering-price rule to any maturity of the Bonds. Bidders should prepare their bids on the assumption that some or all of the maturities of the Bonds will be subject to the hold-the-offering-price rule in order to establish the issue price of the Bonds.

(d) By submitting a bid, the winning bidder shall (i) confirm that the underwriters have offered or will offer the Bonds to the public on or before the date of award at the offering price or prices (the “initial offering price”), or at the corresponding yield or yields, set forth in the bid submitted by the winning bidder and (ii) agree, on behalf of the underwriters participating in the purchase of the Bonds, that the underwriters will neither offer nor sell unsold Bonds of any maturity to which the hold-the-offering-price rule shall apply to any person at a price that is higher than the initial offering price to the public during the period starting on the sale date and ending on the earlier of the following:

- (1) the close of the fifth (5th) business day after the sale date; or
- (2) the date on which the underwriters have sold at least 10% of that maturity of the Bonds to the public at a price that is no higher than the initial offering price to the public.

The winning bidder will advise the Issuer promptly after the close of the fifth (5th) business day after the sale date whether it has sold 10% of that maturity of the Bonds to the public at a price that is no higher than the initial offering price to the public.

(e) If the competitive sale requirements are not satisfied, then until the 10% test has been satisfied as to each maturity of the Bonds, the winning bidder agrees to promptly report to the Issuer the prices at which the unsold Bonds of that maturity have been sold to the public. That reporting obligation shall continue, whether or not the Closing Date has occurred, until either (i) all Bonds of that maturity have been sold or (ii) the 10% test has been satisfied as to the Bonds of that maturity, provided that, the winning bidder’s reporting obligation after the Closing Date may be at reasonable periodic intervals or otherwise upon request of the Issuer or bond counsel.

(f) The Issuer acknowledges that, in making the representations set forth above, the winning bidder will rely on (i) the agreement of each underwriter to comply with the requirements for establishing issue price of the Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Bonds, as set forth in an agreement among underwriters and the related pricing wires, (ii) in the event a selling group has been created in connection with the initial sale of the Bonds to the public, the agreement of each dealer who is a member of the selling group to comply with the requirements for establishing issue price of the Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Bonds, as set forth in a selling group agreement and the related pricing wires, and (iii) in the event that an underwriter or dealer who is a member of the selling group is a party to a third-party distribution agreement that was employed in connection with the initial sale of the Bonds to the public, the agreement of each broker-dealer that is a party to such agreement to comply with the requirements for establishing issue price of the Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Bonds, as set forth in the third-party distribution agreement and the related pricing wires. The Issuer further acknowledges that each underwriter shall be solely liable for its failure to comply with its agreement regarding the requirements for establishing issue price of the Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Bonds, and that no underwriter shall be liable for the failure of any other underwriter, or of any dealer who is a member of a selling group, or of any broker-dealer

that is a party to a third-party distribution agreement to comply with its corresponding agreement to comply with the requirements for establishing issue price of the Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Bonds.

(g) By submitting a bid, each bidder confirms that: (i) any agreement among underwriters, any selling group agreement and each third-party distribution agreement (to which the bidder is a party) relating to the initial sale of the Bonds to the public, together with the related pricing wires, contains or will contain language obligating each underwriter, each dealer who is a member of the selling group, and each broker-dealer that is a party to such third-party distribution agreement, as applicable:

(i)(A) to report the prices at which it sells to the public the unsold Bonds of each maturity allocated to it, whether or not the Closing Date has occurred, until either all Bonds of that maturity allocated to it have been sold or it is notified by the winning bidder that the 10% test has been satisfied as to the Bonds of that maturity, provided that, the reporting obligation after the Closing Date may be at reasonable periodic intervals or otherwise upon request of the winning bidder, and (ii) to comply with the hold-the-offering-price rule, if applicable, if and for so long as directed by the winning bidder and as set forth in the related pricing wires, (B) to promptly notify the winning bidder of any sales of Bonds that, to its knowledge, are made to a purchaser who is a related party to an underwriter participating in the initial sale of the Bonds to the public (each such term being used as defined below), and (C) to acknowledge that, unless otherwise advised by the underwriter, dealer or broker-dealer, the winning bidder shall assume that each order submitted by the underwriter, dealer or broker-dealer is a sale to the public.

(ii) any agreement among underwriters or selling group agreement relating to the initial sale of the Bonds to the public, together with the related pricing wires, contains or will contain language obligating each underwriter or dealer that is a party to a third-party distribution agreement to be employed in connection with the initial sale of the Bonds to the public to require each broker-dealer that is a party to such third-party distribution agreement to (A) report the prices at which it sells to the public the unsold Bonds of each maturity allocated to it, whether or not the Closing Date has occurred, until either all Bonds of that maturity allocated to it have been sold or it is notified by the winning bidder or such underwriter that the 10% test has been satisfied as to the Bonds of that maturity, provided that, the reporting obligation after the Closing Date may be at reasonable periodic intervals or otherwise upon request of the winning bidder or such underwriter, and (B) comply with the hold-the-offering-price rule, if applicable, if and for so long as directed by the winning bidder or the underwriter and as set forth in the related pricing wires.

(h) Sales of any Bonds to any person that is a related party to an underwriter participating in the initial sale of the Bonds to the public (each such term being used as defined below) shall not constitute sales to the public for purposes of this Official Terms of Offering. Further, for purposes of this Official Terms of Offering:

(i) “public” means any person other than an underwriter or a related party,

(ii) “underwriter” means (A) any person that agrees pursuant to a written contract with the Issuer (or with the lead underwriter to form an underwriting syndicate) to participate in the initial sale of the Bonds to the public and (B) any person that agrees pursuant to a written contract directly or indirectly with a person described in clause (A) to participate in the initial sale of the Bonds to the public (including a member of a selling group or a party to a third-party distribution agreement participating in the initial sale of the Bonds to the public),

(iii) a purchaser of any of the Bonds is a “related party” to an underwriter if the underwriter and the purchaser are subject, directly or indirectly, to (A) more than 50% common ownership of the voting power or the total value of their stock, if both entities are corporations (including direct ownership by one corporation of another), (B) more than 50% common ownership of their capital interests or profits interests, if both entities are partnerships (including direct ownership by one partnership of another), or (C) more than 50% common ownership of the value of the outstanding stock of the corporation or the capital interests or profit interests of the partnership, as applicable, if one entity is a corporation and the other entity is a partnership (including direct ownership of the applicable stock or interests by one entity of the other), and

(iv) “sale date” means the date that the Bonds are awarded by the Issuer to the winning bidder.

Official Statement: The Official Statement, when further supplemented by an addendum or addenda specifying the maturity dates, principal amounts, and interest rates of the Bonds, and any other information required by law or deemed appropriate by the Issuer, shall constitute a “Final Official Statement” of the Issuer with respect to the Bonds, as that term is defined in Rule 15c2-12 of the Securities and Exchange Commission (the “Rule”). By awarding the Bonds to any underwriter or underwriting syndicate submitting an Official Bid Form therefore, the Issuer agrees that, no more than seven (7) business days after the date of such award, it shall provide without cost to the senior managing underwriter of the syndicate to which the Bonds are awarded one “.pdf” copy of the Official Statement and the addendum described in the preceding sentence to permit each “Participating Underwriter” (as that term is defined in the Rule) to comply with the provisions of such Rule. The Issuer shall treat the senior managing underwriter of the syndicate to which the Bonds are awarded as its designated agent for purposes of distributing copies of the Final Official Statement to each participating Underwriter. Any underwriter executing and delivering an Official Bid

Form with respect to the Bonds agrees thereby that if its bid is accepted by the Issuer, (i) it shall accept such designation and (ii) it shall enter into a contractual relationship with all Participating Underwriters of the Bonds for purposes of assuring the receipt by each such Participating Underwriter of the Final Official Statement.

CUSIP Numbers: It is anticipated that CUSIP numbers will be printed on the Bonds. In no event will the Issuer be responsible for or Bond Counsel review or express any opinion of the correctness of such numbers, and incorrect numbers on said Bonds shall not be cause for the purchaser to refuse to accept delivery of the Bonds. The fee will be paid for by the Issuer.

Responsibility of Bidder: It is the responsibility of the bidder to deliver its signed, completed bid prior to the time of sale as posted on the front cover of the official statement. Neither the Issuer nor its Financial Advisor will assume responsibility for the collection of or receipt of bids. Bids received after the appointed time of sale will not be opened.

Continuing Disclosure: In order to permit bidders for the Bonds and other participating underwriters in the primary offering of the Bonds to comply with paragraph (b)(5) of the Rule, the Issuer will covenant and agree, for the benefit of the registered holders or beneficial owners from time to time of the outstanding Bonds, in the Bond Resolution and pursuant to a Continuing Disclosure Certificate, to provide annual reports of specified information and notice of the occurrence of certain events, if material, as hereinafter described (the "Disclosure Covenants"). The information to be provided on annual basis, the events as to which notice is to be given, if material, and a summary of other provisions of the Disclosure Covenants, including termination, amendment and remedies, are set forth in Appendix C to this Official Statement.

Breach of the Disclosure Covenants will not constitute a default or an "Event of Default" under the Bonds or Resolution. A broker or dealer is to consider a known breach of the Disclosure Covenants, however, before recommending the purchase or sale of the Bonds in the secondary market. Thus, a failure on the part of the Issuer to observe the Disclosure Covenants may adversely affect the transferability and liquidity of the Bonds and their market price.

For more information see the Continuing Disclosure section herein.

Bond Insurance: Application has not been made for municipal bond insurance. Should the Bonds qualify for the issuance of any policy of municipal bond insurance or commitment therefore at the option of the bidder, the purchase of any such insurance policy or the issuance of any such commitment shall be at the sole option and expense of the Purchaser. Any increased costs of issuance on the Bonds resulting from such purchase of insurance shall be paid by the Purchaser, except that, if the Issuer has requested and received a rating on the Bonds from a municipal bond rating service, the Issuer will pay that rating fee. Any other rating service fees shall be the responsibility of the Purchaser.

Requested modifications to the Bond Resolution or other issuance documents shall be accommodated by the Issuer at its sole discretion. In no event will modifications be made regarding the investment of funds created under the Bond Resolution or other issuance documents without prior Issuer consent, in its sole discretion. Either the Purchaser or the insurer must agree, in the insurance commitment letter or separate agreement acceptable to the Issuer in its sole discretion, to pay any future continuing disclosure costs of the Issuer associated with any rating changes assigned to the municipal bond insurer after closing (for example, if there is a rating change on the municipal bond insurer that require a material event notice filing by the Issuer, the Purchaser or the municipal bond insurer must agree to pay the reasonable costs associated with such filing). Failure of the municipal bond insurer to issue the policy after the Bonds have been awarded to the Purchaser shall not constitute cause for failure or refusal by the Purchaser to accept delivery of the Bonds.

Neither the Issuer nor the Registrar will have any responsibility or obligation to such DTC Participants, indirect participants or the persons for whom they act as nominee with respect to the Bonds.

Interest on the Bonds is payable on May 1, and November 1 in each year, beginning November 1, 2020 to the registered owners thereof. Authorization for the Issuance

The Bonds are being issued pursuant to the Code of Iowa, 2019, as amended, Chapter 296 and as approved by the voters at an election held on June 25, 2019.

Book Entry Only System

The following information concerning The Depository Trust Company (“DTC”), New York, New York and DTC’s book-entry system has been obtained from sources the Issuer believes to be reliable. However, the Issuer takes no responsibility as to the accuracy or completeness thereof and neither the Indirect Participants nor the Beneficial Owners should rely on the following information with respect to such matters but should instead confirm the same with DTC or the Direct Participants, as the case may be. There can be no assurance that DTC will abide by its procedures or that such procedures will not be changed from time to time.

The Depository Trust Company (“DTC”), New York, NY will act as securities depository for the securities (the “Securities”). The Securities will be issued as fully-registered securities registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Security certificate will be issued for the Securities in the aggregate principal amount of such issue, and will be deposited with DTC.

* Preliminary, subject to change

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S equity issues, corporate and municipal debt issues and money market instrument (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC.

DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participations include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies clearing corporations and certain other organizations. DTC is a wholly-owned subsidiary of the Depository Trust & Clearing Corporation ("DTCC").

DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has a Standard & Poor's rating of: AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com and www.dtc.org.

Purchases of Securities under the DTC system must be made by or through Direct Participants, which will receive a credit for the Securities on DTC's records. The ownership interest of each actual purchaser of each security ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered in the transaction. Transfers of ownership interest in the Securities are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership in Securities, except in the event that use of the book-entry system for the Securities is discontinued.

To facilitate subsequent transfers, all Securities deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of Securities with DTC and their registration in the name of Cede & Co. or such other nominee do not affect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Securities; DTC's records reflect only the identity of the Direct Participants to whose accounts such Securities are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Securities may wish to taken certain steps to augment transmission to them notices of significant events with respect to the Securities, such as redemptions, tenders, defaults, and proposed amendments to the security documents. For example, Beneficial Owners of Securities may wish to ascertain that the nominee holding the Securities for their benefit have agreed to obtain and transmit notices to Beneficial Owners, in the alternative, Beneficial owners may wish to provide their names and addresses to the registrar and request that copies of the notices by provided directly to them.

Redemption notices shall be sent to DTC. If less than all of the Securities within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participants in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor such other DTC nominee) will consent or vote with respect to the Securities unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to Issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Securities are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Redemption proceeds, distributions and dividend payments on the Securities will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts, upon DTC's receipt of funds and corresponding detail information from Issuer or Agent on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered

in “street name,” and will be the responsibility of such Participant and not of DTC (nor its nominee), Agent, or Issuer, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions, and dividend payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of Issuer or Agent, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as securities depository with respect to the Securities at any time by giving reasonable notice to Issuer or Agent. Under such circumstances, in the event that a successor securities depository is not obtained, Security certificates are required to be printed and delivered.

Issuer may decide to discontinue use of the system of book-entry-only transfers through DTC (or successor securities depository). In that event Security certificates will be printed and delivered to DTC.

The Issuer cannot and does not give any assurances that DTC, the Direct Participants or the Indirect Participants will distribute to the Beneficial Owners of the Bonds (i) payments of principal of or interest and premium, if any, on the Bonds, (ii) certificates representing an ownership interest or other confirmation of beneficial ownership interest in the Bonds, or (iii) redemption or other notices sent to DTC or Cede & Co., its nominee, as the Registered Owner of the Bonds, or that they will do so on a timely basis, or that DTC, Direct Participants or Indirect Participants will serve and act in the manner described in this Official Statement. The current “Rules” applicable to DTC are on file with the Securities Exchange Commission, and the current “Procedures” of DTC to be followed in dealing with Direct Participants are on file with DTC.

Neither the Issuer nor the Paying Agent will have any responsibility or obligation to any Direct Participant, Indirect Participant or any Beneficial Owner or any other person with respect to: (1) the accuracy of any records maintained by DTC or any Direct Participant or Indirect Participant; (2) the payment by DTC or any Direct Participant or Indirect Participant of any amount due to any Beneficial Owner in respect of the principal or redemption price of or interest on the Bonds; (3) the delivery by DTC or any Direct Participant or Indirect Participant of any notice to any Beneficial Owner which is required or permitted under the terms of the Indenture to be given to owners of Bonds; (4) the selection of the Beneficial Owners to receive payment in the event of any partial redemption of the Bonds; or (5) any consent given or other action taken by DTC as a Bondholder.

Transfer and Exchange

In the event that the Book Entry System is discontinued, any Bond may, in accordance with its terms, be transferred by the person in whose name it is registered, in person or by his duly authorized attorney, upon surrender of such Bond for cancellation at the principal corporate office of the Registrar accompanied by delivery of a duly executed written instrument of transfer in a form approved by the Registrar. Whenever any Bond or Bonds shall be surrendered for transfer, the Registrar shall execute and deliver a new Bond or Bonds of the same maturity, interest rate, and aggregate principal amount.

Bonds may be exchanged at the principal corporate office of the Registrar for a like aggregate principal amount of Bonds or other authorized denominations of the same maturity and interest rate; provided, however, that the Registrar is not required to transfer or exchange any Bonds which have been selected for prepayment and is not required to transfer or exchange any Bonds during the period beginning 15 days prior to the selection of Bonds for prepayment and ending the date notice of prepayment is mailed. The Registrar may require the payment by the Bond Owner requesting such exchange of any tax or other governmental charge required to be paid with respect to such exchange. All Bonds surrendered pursuant to the provisions of this and the preceding paragraph shall be canceled by the Registrar and shall not be redelivered.

Prepayment

Optional Prepayment: The Bonds maturing after May 1, 2027, may be called for redemption by the Issuer and paid before maturity on said date or any date thereafter, from any funds regardless of source, in whole or from time to time in part, in any order of maturity and within an annual maturity by lot. The terms of redemption shall be par, plus accrued interest to date of call.

Notice of Prepayment. Prior to the redemption of any Bonds under the provisions of the Resolution, the Registrar shall give written notice not less than thirty (30) days prior to the redemption date to each registered owner thereof. Written notice shall be effective upon the date of transmission to the owner of record of the Bond.

Mandatory Sinking Fund Redemption The Bonds maturing on _____ are subject to mandatory redemption (by lot, as selected by the Registrar) on ____ 1 and _____ in each of the years ____ through ____ at a redemption price of 100% of the principal amount thereof to be redeemed, plus accrued interest thereon to the redemption date in the following principal amounts:

_____ Term Bond
Mandatory Sinking Fund Date Principal Amount
\$

(maturity)

Selection of Bonds for Redemption Bonds subject to redemption will be selected in such order of maturity as the Issuer may direct. If less than all of the Bonds of a single maturity are to be redeemed, the Issuer will notify DTC of the particular amount of such maturity to be redeemed prior to maturity. DTC will determine by lot the amount of each Participant's interest in such maturity to be redeemed and each Participant will then select by lot the beneficial ownership interests in such maturity to be redeemed. All prepayments shall be at a price of par plus accrued interest.

Any notice of redemption may contain a statement that the redemption is conditioned upon the receipt by the Paying Agent of funds on or before the date fixed for redemption sufficient to pay the redemption price of the Bonds so called for redemption, and that if funds are not available, such redemption shall be cancelled by written notice to the owners of the Bonds called for redemption in the same manner as the original redemption notice was sent.

Source of Security for the Bonds

These Bonds are general obligations of the Issuer. The Bonds are payable from general ad valorem property taxes, without limitation of amount, levied against all taxable property of that portion of the District.

Iowa Code section 76.2 provides that when an Iowa political subdivision issues bonds, "[t]he governing authority of these political subdivisions before issuing bonds shall, by resolution, provide for the assessment of an annual levy upon all the taxable property in the political subdivision sufficient to pay the interest and principal of the bonds within a period named not exceeding twenty years. A certified copy of this resolution shall be filed with the county auditor or the auditors of the counties in which the political subdivision is located; and the filing shall make it a duty of the auditors to enter annually this levy for collection from the taxable property within the boundaries of the political subdivision until funds are realized to pay the bonds in full."

BONDHOLDERS' RISKS

Tax Levy Procedures

The Bonds are general obligations of the Issuer, payable from and secured by a continuing ad-valorem tax levied against all of the property valuation within the Issuer. As part of the budgetary process of the Issuer each fiscal year the Issuer will have an obligation to request a debt service levy to be applied against all of the property within the Issuer. A failure on the part of the Issuer to make a timely levy request or a levy request by the Issuer that is inaccurate or is insufficient to make full payments of the debt service on the Bonds for a particular fiscal year may cause Bondholders to experience delay in the receipt of distributions of principal of and/or interest on the Bonds. Consequently, the remedies of the owners of the Bonds (consisting primarily of an action in the nature of mandamus requiring the Issuer and certain other public officials to perform the terms of the resolution for the Bonds) may have to be enforced from year to year.

2013 Property Tax Legislation

During its 2013 session the Iowa Legislature enacted, and the Governor signed, Senate File 295 ("SF295"). Among other things, SF295 reduces the limit on the annual assessed value growth with respect to residential and agricultural property from 4% to 3%, reduces as a rollback the taxable value applicable to commercial, industrial and railroad property to 95% for the 2013 assessment year and 90% for the 2014 assessment year and all years thereafter, and provides a partial exemption on telecommunications property. SF295 also creates a new separate classification for multiresidential properties which were previously taxed as commercial properties, and assigns an incremental rollback percentage over several years for multiresidential properties such that the multiresidential rollback determination will match that for residential properties in the 2022 assessment year. As a result of SF295, local governments expect to experience reductions in property tax revenues over the next several fiscal years. SF295 includes state-funded replacement moneys for a portion of the expected reduction in property tax revenues to the local governments, but such replacement funding is limited in both amount and duration of availability. There can be no assurance the state-funded replacement moneys will be provided by the state, if at all, during the term the Bonds remain outstanding. The Issuer does not expect the state replacement funding to fully address the property tax reductions resulting from SF295 during the term the Bonds remain outstanding. While SF295 does not limit the legal obligation or the amount the Issuer may be required to levy for payments of debt service on the Bonds there can be no assurances that SF295 will not have a material adverse impact with respect to the Issuer's financial position.

Changes in Property Taxation

From time to time the Iowa General Assembly has altered the method of property taxation and could do so again. Any alteration in property taxation structure could affect property tax revenues available to pay the Bonds. Historically, the Iowa General

Assembly has applied changes in property taxation structure on a prospective basis; however, there is no assurance that future changes in property taxation structure by the Iowa General Assembly will not be retroactive. It is impossible to predict the outcome of future property tax changes by the Iowa General Assembly or their potential impact on the Bonds and the security for the Bonds.

Matters Relating to Enforceability of Agreements

Holders of the Bonds shall have and possess all the rights of action and remedies afforded by the common law, the Constitution and statutes of the State of Iowa and of the United States of America for the enforcement of payment of the Bonds, including, but not limited to, the right to a proceeding in law or in equity by suit, action or mandamus to enforce and compel performance of the duties required by Iowa law and the Bond Resolution.

There is no Bond trustee or similar person to monitor or enforce the provisions of the resolution for the Bonds. The owners of the Bonds should, therefore, be prepared to enforce such provisions themselves if the need to do so arises. In the event of a default in the payment of principal or interest on the Bond, there is no provision for acceleration of maturity of the principal of the Bonds. Consequently, the remedies of the owners of the Bonds (consisting primarily of an action in the nature of mandamus requiring the District and certain other public officials to perform the terms of the resolution for the Bonds) may have to be enforced from year to year. Holders of the Bonds shall have and possess all the rights of action and remedies afforded by the common law, the Constitution and statutes of the State of Iowa and of the United States of America for the enforcement of payment of the Bond, including, but not limited to, the right to a proceeding in law or in equity by suit, action or mandamus to enforce and compel performance of the duties required by Iowa law and the Bond Resolution.

The practical realization of any rights upon any default will depend upon the exercise of various remedies specified in the Bond Resolution. The remedies available to the owners of the Bonds upon an event of default under the Bond Resolution, in certain respects, may require judicial action, which is often subject to discretion and delay. Under existing law, including specifically the federal bankruptcy code, certain of the remedies specified in the Bond Resolution may not be readily available or may be limited. A court may decide not to order the specific performance of the covenants contained in these documents. The legal opinions to be delivered concurrently with the delivery of the Bonds will be qualified as to the enforceability of the various legal instruments by limitations imposed by general principles of equity and public policy and by bankruptcy, reorganization, insolvency or other similar laws affecting the rights of creditors generally.

No representation is made, and no assurance is given, that the enforcement of any remedies with respect to such assets will result in sufficient funds to pay all amounts due under the Bond Resolution or the Loan Agreement, including principal of and interest on the Bonds.

Secondary Market

There can be no guarantee that there will be a secondary market for the Bonds or, if a secondary market exists, that such Bonds can be sold for any particular price. Occasionally, because of general market conditions or because of adverse history of economic prospects connected with a particular issue, and secondary marketing practices in connection with a particular Bond or Bonds issue are suspended or terminated. Additionally, prices of bond or note issues for which a market is being made will depend upon then prevailing circumstances. Such prices could be substantially different from the original purchase price of the Bonds.

Pension

Pursuant to GASB Statement No. 68, the School reported a liability of \$5,896,324 as of June 30, 2019 for its proportionate share of the net pension liability for Iowa Public Employee Retirement System (“IPERS”). The net pension liability is the amount by which the total actuarial liability exceeds the pension plan’s net assets or fiduciary net position (essentially the market value) available for paying benefits. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School’s proportion of the net pension liability was based on the School’s share of contributions to the pension plan relative to the contributions of all IPERS participating employers. As of June 30, 2018, the School’s collective proportion was .093175%, which was an increase of .000834% from the combined proportions of the former Odebolt-Arthur and Battle Creek-Ida Grove Community School Districts measured June 30, 2017. See School’s Audited Financial Statements, Appendix D, for additional information.

Rating

Standard & Poor’s Corporation (the “Rating Agency”) has assigned a rating of “A” to the Bonds. Generally, a rating agency bases its rating on the information and materials furnished to it and on investigations, studies and assumptions of its own. There is no assurance that the rating will continue for any given period of time, or that such rating will not be revised, suspended or withdrawn, if, in the judgment of the Rating Agency, circumstances so warrant. A revision, suspension or withdrawal of a rating may have an adverse effect on the market price of the Bonds.

Rating agencies are currently not regulated by any regulatory body. Future regulation of rating agencies could materially alter

the methodology, rating levels, and types of ratings available, for example, and these changes, if ever, could materially affect the market value of the Bonds.

Forward-Looking Statements

This Official Statement contains statements relating to future results that are “forward-looking statements” as defined in the Private Securities Litigation Reform Act of 1995. When used in this Official Statement, the words “estimate,” “forecast,” “intend,” “expect” and similar expressions identify forward-looking statements. Any forward-looking statement is subject to uncertainty. Accordingly, such statements are subject to risks that could cause actual results to differ, possibly materially, from those contemplated in such forward-looking statements. Inevitably, some assumptions used to develop forward-looking statements will not be realized or unanticipated events and circumstances may occur. Therefore, investors should be aware that there are likely to be differences between forward looking statements and the actual results. These differences could be material and could impact the availability of funds of the Issuer to pay debt service when due on the Bonds.

Pending Federal Tax Legislation

From time to time, there are Presidential proposals, proposals of various federal committees, and legislative proposals are pending in Congress that could, if enacted, alter or amend one or more of the federal tax matters described herein in certain respects or would adversely affect the market value of the Bonds or otherwise prevent holders of the Bonds from realizing the full benefit of the tax exemption of interest on the Bonds. Further such proposals may impact the marketability or market value of the Bonds simply by being proposed. It cannot be predicted whether or in what forms any of such proposals, either pending or that may be introduced, may be enacted and there can be no assurance that such proposals will not apply to the Bonds. In addition regulatory actions are from time to time announced or proposed, and litigation threatened or commenced, which if implemented or concluded in a particular manner, could adversely affect the market value, marketability or tax status of the Bonds. It cannot be predicted whether any such regulatory action will be implemented, how any particular litigation or judicial action will be resolved, or whether the Bonds would be impacted thereby.

Risks as Employer

The Issuer is a major employer, combining a complex mix of tenured and untenured full-time faculty, part-time faculty, technical and clerical support staff and other types of workers in a single operation. As with all large employers, the Issuer bears a wide variety of risks in connection with its employees. These risks include discrimination claims, personal tort actions, work-related injuries, exposure to hazardous materials, interpersonal torts (such as between employees or between employees and students) and other risks that may flow from the relationships between employer and employee or between students and employees. Certain of these risks are not covered by insurance, and certain of them cannot be anticipated or prevented in advance.

Cybersecurity

The Issuer relies on its information systems to provide security for processing, transmission and storage of confidential and other sensitive information. Security breaches, including electronic break-ins, computer viruses, attacks by hackers and similar breaches could create disruptions or shutdowns of the Issuer and the services it provides, or the unauthorized access to or disclosure of personally identifiable information and other confidential or sensitive information. Despite security measures, the Issuer may remain vulnerable to attacks by outside or internal hackers, or breaches caused by employee error, negligence or malfeasance. Any failure to maintain proper functionality and security of the Issuer’s information systems could interrupt the Issuer’s operations, damage its reputation, subject it to significant costs, liability claims or regulatory penalties, and could have a material adverse effect on the operations and financial condition of the Issuer. The Issuer has a \$10 million cyber-insurance policy. The Issuer cannot predict whether this policy will be sufficient in the event of a cyberattack.

Limitation or Delay of Remedies

There is no bond trustee or similar person to monitor or enforce the provisions of the resolution for the Bonds. The owners of the Bonds should, therefore, be prepared to enforce such provisions themselves if the need to do so arises. In the event of a default in the payment of principal of or interest on the Bonds, there is no provision for acceleration of maturity of the principal of the Bonds. Consequently, the remedies of the owners of the Bonds (consisting primarily of an action in the nature of mandamus requiring the Issuer and certain other public officials to perform the terms of the resolutions for the Bonds) may have to be enforced from year to year.

The remedies available to the owners of the Bonds upon an event of default under the Resolution are in many respects dependent upon judicial actions which are often subject to discretion and delay. Under existing constitutional and statutory law and judicial decisions, including specifically the Bankruptcy Code, the remedies provided in the Resolution may not be readily available or may be limited. The various legal opinions to be delivered concurrently with the delivery of the Bonds and the delivery of the Resolution will be qualified as to the enforceability of the various legal instruments by limitations imposed by general principles of equity and by bankruptcy, reorganization, insolvency or other similar laws affecting the rights of creditors generally.

Debt Payment History

The Issuer knows of no instance in which it has intentionally defaulted in the payment of principal and interest on any of its debt.

Redemption Prior to Maturity

In considering whether the Bonds might be redeemed prior to maturity, Bondholders should consider the information included in this Official Statement under the heading "THE BONDS." Furthermore, the Bonds are subject to optional and mandatory redemption as set forth herein. See "THE BONDS" herein.

Clean up Costs and Liens under Environmental Statutes

The Issuer is not aware of any enforcement actions currently in process with respect to any releases of pollutants or contaminants at the Project sites. However, there can be no assurance that an enforcement action or actions will not be instituted under such statutes at future date. In the event such enforcement actions were initiated, the Issuer could be liable for the costs of removing or otherwise treating pollutants or contaminants located at the Project sites. In addition, under applicable environmental statutes, in the event an enforcement action is initiated, a lien superior to any Bondholders' lien, if any, could attach to the Project, which may adversely affect the Bondholders' rights.

General Liability Claims

In recent years, the number of general liability suits and the dollar amounts of damage awards have increased nationwide, resulting in substantial increases in insurance premiums. Litigation may also arise against the Issuer from its business activities, such as its status as an employer. While the Issuer maintains general liability insurance coverage, the Issuer is unable to predict the availability or cost of such insurance in the future. In addition, it is possible that certain types of liability awards may not be covered by insurance as in effect at relevant times. Any negative impact resulting from such awards may impact the Issuer's ability to operate.

Project Completion; Risks of Construction

A delay in completion of the Project may arise from any number of other causes, including but not limited to, adverse weather conditions, unavailability of subcontractors, and negligence on the part of subcontractors, labor disputes, or unanticipated costs of construction, equipping or renovation. Any of these events or occurrences, separately or in combination, could have a material adverse effect on the Issuer's ability to complete the Project, or to complete it as planned and on schedule. The Issuer believes that the proceeds of the Bonds, plus the previously issued \$9,550,000 General Obligation School Bonds, Series 2019, will be sufficient to complete the Project; however, the cost of construction of the Project may be affected by factors beyond the control of the Issuer, including strikes, material shortages, adverse weather conditions, trade tariffs, subcontractor defaults, delays, and unknown conditions.

Damage or Destruction to District's Facilities

Although the District maintains certain kinds of insurance, there can be no assurance that the District will not suffer uninsured losses in the event of damage to or destruction of the District's facilities, including the Project, due to fire or other calamity or in the event of other unforeseen circumstances

Financial Condition of the Issuer from time to time

No representation is made as to the future financial condition of the Issuer. Certain risks discussed herein could adversely affect the financial condition and/or operations of the Issuer in the future. However, the Bonds are secured by an unlimited ad valorem property tax as described more fully in the "THE BONDS – Source of Security for the Bonds" herein.

Continuing Disclosure

A failure by the Issuer to comply with the continuing disclosure obligations (see "Continuing Disclosure" herein) will not constitute an event of default on the Bonds. Any such failure must be disclosed in accordance with Rule 15c2-12 adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as amended, and may adversely affect the transferability and liquidity of the Bonds and their market price.

Suitability of Investment

The interest rate borne by the Bonds is intended to compensate the investor for assuming the risk of investing in the Bonds. Each prospective investor should carefully examine this Official Statement and its own financial condition to make a judgement as to its ability to bear the economic risk of such and investment, and whether or not the bonds are an appropriate investment for such investor.

Factors Beyond Issuer's Control

Economic and other factors beyond the Issuer's control, such as economic recession, deflation of property values, or financial difficulty or bankruptcy by one or more major property taxpayers, or the complete or partial destruction of taxable property caused by, among other eventualities, earthquake, flood, fire or other natural disaster, could cause a reduction in the assessed value within the corporate boundaries of the Issuer. The State of Iowa, including the Issuer, is susceptible to tornados, flooding and extreme weather wherein winds and flooding have from time to time caused significant damage, which may have an adverse impact on the Issuer's financial position.

DTC-Beneficial Owners

Beneficial Owners of the Bonds may experience some delay in the receipt of distributions of principal of and interest on the Bonds since such distributions will be forwarded by the Paying Agent to DTC and DTC will credit such distributions to the accounts of the Participants which will thereafter credit them to the accounts of the Beneficial Owner either directly or indirectly through indirect Participants. Neither the Issuer nor the Paying Agent will have any responsibility or obligation to assure that any such notice or payment is forwarded by DTC to any Participants or by any Participant to any Beneficial Owner.

In addition, since transactions in the Bonds can be effected only through DTC Participants, indirect participants and certain banks, the ability of a Beneficial Owner to pledge the Bonds to persons or entities that do not participate in the DTC system, or otherwise to take actions in respect of such Bonds, may be limited due to lack of a physical certificate. Beneficial Owners will be permitted to exercise the rights of registered Owners only indirectly through DTC and the Participants. See “**THE BONDS—Book-Entry Only System.**”

Other Factors

An investment in the Bonds involves an element of risk. In order to identify risk factors and make an informed investment decision, potential investors should be thoroughly familiar with this entire Official Statement (including the Appendices hereto) in order to make a judgment as to whether the Bonds are an appropriate investment.

Summary

The foregoing is intended only as a summary of certain risk factors attendant to an investment in the Bonds. In order for potential investors to identify risk factors and make an informed investment decision, potential investors should become thoroughly familiar with this entire Official Statement and the Appendices hereto.

LITIGATION

The District encounters litigation occasionally, as a course of business, however, no litigation currently exists that is not believed to be covered by current insurance carriers and no litigation has been proposed that questions the validity of these bonds.

ACCOUNTANT

At an election held on June 27, 2017, the voters of the historical Battle Creek-Ida Grove Community School District and the historical Odebolt-Arthur Community School District approved reorganizing into the Odebolt Arthur Battle Creek Ida Grove Community School District effective July 1, 2018. The accrual-basis financial statements of the historical Battle Creek-Ida Grove Community School District and the historical Odebolt-Arthur Community School District for fiscal year ending June 30, 2018 are included as APPENDIX D to this Official Statement and have been examined by Nolte, Cornman & Johnson, P.C. to the extent and for the periods indicated in their report thereon. The Issuer has also included unaudited financial statements for the Odebolt Arthur Battle Creek Ida Grove Community School District for fiscal year ending June 30, 2019 in APPENDIX D to this Official Statement.

The Underwriter may offer and sell the Bonds to certain dealers (including dealers depositing the Bonds into unit investment trusts, certain of which may be sponsored or managed by the Underwriter) at prices lower than the initial public offering prices stated on the cover page. The initial public offering prices of the Bonds may be changed, from time to time, by the Underwriter.

The Underwriter intends to engage in secondary market trading of the Bonds subject to applicable securities laws. The Underwriter is not obligated, however, to repurchase any of the Bonds at the request of the holder thereof.

THE PROJECT

The Bonds are being issued to provide funds to i) construct additions to an remodel, repair and improve the Elementary/Middle School building in Odebolt and the High School building and to improve the sites, and ii) to pay costs of issuance for the Bonds.

TAX EXEMPTION AND RELATED CONSIDERATIONS

Tax Exemption

Federal tax law contains a number of requirements and restrictions that apply to the Bonds, including investment restrictions, periodic payments of arbitrage profits to the United States, requirements regarding the proper use of Bond proceeds and facilities financed with Bond proceeds, and certain other matters. The Issuer has covenanted to comply with all requirements that must be satisfied in order for the interest on the Bonds to be excludable from gross income for federal income tax purposes. Failure to comply with certain of such covenants could cause interest on the Bonds to become includable in gross income for federal income tax purposes retroactively to the date of issuance of the Bonds.

Subject to the Issuer's compliance with the above-referenced covenants, under present law, in the opinion of Bond Counsel, the interest on the Bonds is excludable from gross income for federal income tax purposes and interest on the Bonds is not an item of tax preference for purposes of the federal alternative minimum tax.

Prospective purchasers of the Bonds should be aware that ownership of the Bonds may result in collateral federal income tax consequences to certain taxpayers, including, without limitation, corporations subject to the branch profits tax, financial institutions, certain insurance companies, certain S corporations, individual recipients of Social Security or Railroad Retirement benefits and taxpayers who may be deemed to have incurred (or continued) indebtedness to purchase or carry tax-exempt obligations. Bond Counsel will not express any opinion as to such collateral tax consequences. Prospective purchasers of the Bonds should consult their tax advisors as to collateral federal income tax consequences.

The interest on the Bonds is not exempt from present Iowa income taxes. Ownership of the Bonds may result in other state and local tax consequences to certain taxpayers. Bond Counsel expresses no opinion regarding any such collateral consequences arising with respect to the Bonds. Prospective purchasers of the Bonds should consult their tax advisors regarding the applicability of any such state and local taxes.

Qualified Tax Exemption Obligations

The Bonds will be designated as "qualified tax-exempt obligations" under the exception provided in Section 265(b)(3)(B) of the Internal Revenue Code of 1986, as amended (the "Code").

Discount and Premium Bonds

The initial public offering price of certain Bonds may be less than the amount payable on such Bonds at maturity ("Discount Bonds"). Owners of Discount Bonds should consult with their own tax advisors with respect to the determination of accrued original issue discount on Discount Bonds for income tax purposes and with respect to the state and local tax consequences of owning and disposing of Discount Bonds. It is possible that, under applicable provisions governing determination of state and local income taxes, accrued interest on Discount Bonds may be deemed to be received in the year of accrual even though there will not be a corresponding cash payment.

The initial public offering price of certain Bonds may be greater than the amount of such Bonds at maturity ("Premium Bonds"). Purchasers of the Premium Bonds should consult with their own tax advisors with respect to the determination of amortizable premium on Premium Bonds for income tax purposes and with respect to the state and local tax consequences of owning and disposing of Premium Bonds.

Other Tax Advice

In addition to the income tax consequences described above, potential investors should consider the additional tax consequences of the acquisition, ownership, and disposition of the Bonds. For instance, state income tax law may differ substantially from

state to state, and the foregoing is not intended to describe any aspect of the income tax laws of any state. Therefore, potential investors should consult their own tax advisors with respect to federal tax issues and with respect to the various state tax consequences of an investment in Bonds.

Audits

The Internal Revenue Service (the “Service”) has an ongoing program of auditing tax-exempt obligations to determine whether, in the view of the Service, interest on such tax-exempt obligations is includable in the gross income of the owners thereof for federal income tax purposes. To the best of the Issuer’s knowledge, no obligations of the Issuer are currently under examination by the Service. It cannot be predicted whether or not the Service will commence an audit of the Bonds. If an audit is commenced, under current procedures the Service may treat the Issuer as a taxpayer and the Bondholders may have no right to participate in such procedure. The commencement of an audit could adversely affect the market value and liquidity of the Bonds until the audit is concluded, regardless of the ultimate outcome.

Reporting and Withholding

Payments of interest on, and proceeds of the sale, redemption or maturity of, tax-exempt obligations, including the Bonds, are in certain cases required to be reported to the Service. Additionally, backup withholding may apply to any such payments to any Bond owner who fails to provide an accurate Form W-9 Request for Taxpayer Identification Number and Certification, or a substantially identical form, or to any Bond owner who is notified by the Service of a failure to report any interest or dividends required to be shown on federal income tax returns. The reporting and backup withholding requirements do not affect the excludability of such interest from gross income for federal tax purposes.

Tax Legislation

Legislation affecting tax-exempt obligations is regularly considered by the United States Congress and may be considered by the Iowa legislature. Court proceedings may also be filed, the outcome of which could modify the tax treatment. There can be no assurance that legislation enacted or proposed, or actions by a court, after the date of issuance of the Bonds will not have an adverse effect on the tax status of interest or other income on the Bonds or the market value or marketability of the Bonds. These adverse effects could result, for example, from changes to federal or state income tax rates, changes in the structure of federal or state income taxes (including replacement with another type of tax), or repeal (or reduction in the benefit) of the exclusion of interest on the Bonds from gross income for federal or state income tax purposes for all or certain taxpayers.

Current and future legislative proposals, including some that carry retroactive effective dates, if enacted into law, court decisions, or clarification of the Code may cause interest on the Bonds to be subject, directly or indirectly, to federal income taxation, or otherwise prevent owners of the Bonds from realizing the full current benefit of the tax status of such interest. For example, on December 22, 2017, the Tax Cuts and Jobs Act (“TCJA”) was signed into law. For tax years beginning after December 31, 2017, the TCJA, among other things, significantly changes the income tax rates on individuals and corporations, modifies the current provisions relative to the federal alternative minimum tax on individuals, and eliminates the federal alternative minimum tax for corporations. The TCJA, or the introduction or enactment of any other legislative proposals, clarification of the Code or court decisions may also affect, perhaps significantly, the market price for, or marketability of, the Bonds. Prospective purchasers of the Bonds should consult their own tax advisors regarding the TCJA, as well as any pending or proposed tax legislation, as to which Bond Counsel expresses no opinion other than as set forth in its legal opinion.

The Opinion

The FORM OF LEGAL OPINION, in substantially the form set out in APPENDIX B to this Preliminary Official Statement, will be delivered at closing.

Bond Counsel’s opinion is not a guarantee of a result, or of the transaction on which the opinion is rendered, or of the future performance of parties to the transaction, but represents its legal judgment based upon its review of existing statutes, regulations, published rulings and court decisions and the representations and covenants of the Issuer described in this section. No ruling has been sought from the Service with respect to the matters addressed in the opinion of Bond Counsel and Bond Counsel’s opinion is not binding on the Service, nor does the rendering of the opinion guarantee the outcome of any legal dispute that may arise out of the transaction. Bond Counsel assumes no obligation to update its opinion after the issue date to reflect any further action, fact or circumstance, or change in law or interpretation, or otherwise.

Enforcement

There is no bond trustee or similar person to monitor or enforce the terms of the resolution for issuance of the Bonds. In the event of a default in the payment of principal of or interest on the Bonds, there is no provision for acceleration of maturity of the principal of the Bonds. Consequently, the remedies of the owners of the Bonds (consisting primarily of an action in the nature of mandamus requiring the Issuer and certain other public officials to perform the terms of the resolution for the Bonds) may have to be enforced from year to year.

The owners of the Bonds cannot foreclose on property within the boundaries of the Issuer or sell such property in order to pay

the debt service on the Bonds. In addition, the enforceability of the rights and remedies of owners of the Bonds may be subject to limitation as set forth in Bond Counsel's opinion. The opinion will state, in part, that the obligations of the Issuer with respect to the Bonds may be subject to bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights heretofore or hereafter enacted to the extent constitutionally applicable, to the exercise of judicial discretion in appropriate cases and to the exercise by the State and its governmental bodies of the police power inherent in the sovereignty of the State and to the exercise by the United States of America of the powers delegated to it by the Constitution of the United States of America.

Bond Counsel Review

Bond Counsel has approved the language included in this "Tax Exemption and Related Considerations" Section but has not otherwise participated in the preparation of this Preliminary Official Statement and will not pass upon its accuracy, completeness or sufficiency. Bond Counsel has not examined, nor attempted to examine or verify, any of the financial or statistical statements or data contained in this Preliminary Official Statement, and will express no opinion with respect thereto.

ALL POTENTIAL PURCHASERS OF THE BONDS SHOULD CONSULT WITH THEIR TAX ADVISORS WITH RESPECT TO FEDERAL, STATE AND LOCAL TAX CONSEQUENCES OF OWNERSHIP OF THE BONDS (INCLUDING BUT NOT LIMITED TO THOSE LISTED ABOVE).

FINANCIAL ADVISOR

The Issuer has retained Piper Sandler & Co. as financial advisor (the "Financial Advisor") in connection with the issuance of the Bonds. The Financial Advisor has not been engaged, nor has it undertaken, to independently verify the accuracy of the Official Statement. The Financial Advisor is not a public accounting firm and has not been engaged by the Issuer to compile, review, examine or audit any information in the Official Statement in accordance with accounting standards.

CONTINUING DISCLOSURE

For the purpose of complying with Rule 15c2-12 of the Securities Exchange Commission, as amended and interpreted from time to time (the "Rule"), the Issuer will covenant and agree, for the benefit of the registered holders or beneficial owners from time to time of the outstanding Bonds to provide reports of specified information and notice of the occurrence of certain events, if material, as hereinafter described (the "Disclosure Covenants"). The information to be provided on an annual basis, and the events as to which notice is to be given, if material, is summarized below under the caption "APPENDIX C - Form of Continuing Disclosure Certificate" herein for more information. This covenant is being made by the Issuer to assist the Underwriter(s) in complying with the Rule.

Breach of the Disclosure Covenants will not constitute a default or an "Event of Default" under the Bonds or Resolution, respectively. A broker or dealer is to consider a known breach of the Disclosure Covenants, however, before recommending the purchase or sale of the Bonds in the secondary market. Thus, a failure on the part of the Issuer to observe the Disclosure Covenants may adversely affect the transferability and liquidity of the Bonds and their market price.

In the previous five (5) years, the Issuer has not issued debt which was subject to the disclosure requirements of the Rule or included Disclosure Covenants.

I have reviewed the information contained within the Official Statement of the OABCIG Community School District, State of Iowa, and to the best of our knowledge, information and belief said Official Statement does not contain any material misstatements of fact nor omissions of any material fact which is necessary to make the statements and information herein, in light of the circumstances under which they were made, not misleading regarding the issuance of \$6,350,000* General Obligation School Bonds, Series 2020.

Other Post Employment Benefits

The District administers a single-employer benefit plan which provides medical and prescription drug benefits for employees, retirees and their spouses. Individuals who are employed by the District and are eligible to participate in the group health plan are eligible to continue healthcare benefits upon retirement. Retirees under age 65 pay the same premium for the medical and prescription drug benefits as active employees, which results in an implicit rate subsidy and an OPEB liability. The District's total OPEB liability of \$979,566 was measured as of June 30, 2019, and was determined by an actuarial valuation as of that date.

Further information, including information concerning actuarial assumptions, discount rates, and deferred inflows and outflows is available in the District's 2019 Independent Audited Financial Statements, Note 9.

Employee Pension Plan

Plan Description. Iowa Public Employees' Retirement System ("IPERS") membership is mandatory for employees of the Issuer. The Issuer's employees are provided with pensions through a cost-sharing multiple employer defined pension plan administered by IPERS. IPERS benefits

are established under Iowa Code, Chapter 97B and the administrative rules thereunder. The Issuer’s employee who completed seven years of covered service or has reached the age of 65 while in IPERS covered employment becomes vested. If the Issuer’s employee retires before normal retirement age, the employees’ monthly retirement benefit will be permanently reduced by an early-retirement reduction. IPERS provides pension benefits as well as disability benefits to Issuer employees and benefits to the employees’ beneficiaries upon the death of the eligible employee. See “**APPENDIX D–AUDITED FINANCIAL STATEMENTS OF THE ISSUER–NOTES TO THE FINANCIAL STATEMENTS**” for additional information on IPERS. Additionally, copies of IPERS annual financial report may be obtained from www.ipers.org. Moreover, IPERS maintains a website at www.ipers.com. However, the information presented in such financial reports or on such websites is not incorporated into this Official Statement by any reference.

Contributions. Effective July 1, 2012, as a result of a 2010 law change, IPERS contribution rates for the Issuer and its employees are established by IPERS following the annual actuarial valuation (which applies IPERS’ Contribution Rate Funding Policy and Actuarial Amortization method.) State statute, however, limits the amount rates can increase or decrease each year to one (1) percentage point. Therefore, any difference between the actuarial contribution rates and the contributions paid is due entirely to statutorily set contributions that may differ from the actual contribution rates. As a result, while the contribution rate in the fiscal year ended June 30, 2017 equaled the actuarially required rate, there is no guarantee, due to this statutory limitation on rate increases, that the contribution rate will meet or exceed the actuarially required rate in the future.

The Issuer’s contributions to IPERS is not less than that which is required by law. The Issuer’s share of the contribution, payable from the applicable funds of the Issuer, is provided by a statutorily authorized annual levy of taxes without limit or restriction as to rate or amount. The Issuer has always made its full required contributions to IPERS.

The following table sets forth the contributions made by the Issuer and its employees to IPERS for the period indicated. The Issuer cannot predict the levels of funding that will be required in the future.

Table 1 – Issuer and Employees Contribution to IPERS.

Fiscal Year	Amount Contributed	% of Covered Payroll	Amount Contributed	% of Covered Payroll
2015	588,359	8.93	392,334	5.95
2016	615,114	8.93	409,876	5.95
2017	627,867	8.93	418,876	5.95
2018	625,364	8.93	416,675	5.95
2019	682,520	9.44	454,775	6.29

SOURCE: the Issuer

The Issuer cannot predict the levels of funding that will be required in the future as any IPERS unfunded pension benefit obligation could be reflected in future years in higher contribution rates. The investment of moneys, assumptions underlying the same and the administration of IPERS is not subject to the direction of the Issuer. Thus, it is not possible to predict, control or prepare for future unfunded accrued actuarial liabilities of IPERS (“UAALs”). The UAAL is the difference between total actuarially accrued liabilities and actuarially calculated assets available for the payment of such benefits. The UAAL is based on assumptions as to retirement age, mortality, projected salary increases attributed to inflation, across-the-board raises and merit raises, adjustments, cost-of-living adjustments, valuation of current assets, investment return and other matters. Such UAAL could be substantial in the future, requiring significantly increased contributions from the Issuer which could affect other budgetary matters.

The following table sets forth certain information about the funding status of IPERS that has been extracted from the comprehensive annual financial reports of IPERS for the fiscal years ended June 30, 2019 through, and including, 2015 (collectively, the “IPERS CAFRs (2015-2019)”), and the actuarial valuation reports provided to IPERS by Cavanaugh MacDonald Consulting, LLC (collectively, the “IPERS Actuarial Reports (2015-2019)”). Additional information regarding IPERS and its latest actuarial valuations can be obtained by contacting IPERS administrative staff.

Net Pension Liabilities.

Effective for fiscal years beginning after June 15, 2014, GASB Statement 68 requires all reporting units in a multi-employer cost sharing pension plan to record a balance sheet liability for their proportionate share of the net pension liability of the plan. The Issuer was required to implement GASB 68 in their year end June 30, 2015 financial statements.

At June 30, 2019, the Issuer reported a liability of \$5,896,324 for its proportional share of the IPERS net pension liability. The net pension liability was measured as of June 30, 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The discount rate used to measure the total pension liability was 7.0%. The Issuer’s proportion of the net pension liability was based on the Issuer’s share of contributions to the pension plan relative to the contributions of all IPERS participating employers. See “**APPENDIX D–AUDITED FINANCIAL STATEMENTS OF THE ISSUER–NOTES TO THE FINANCIAL STATEMENTS**” for additional information related to the Issuer’s deferred outflows and inflows of resources related to pensions, actuarial assumptions, discount rate and discount rate sensitivity.

Detailed information about the pension plan’s fiduciary net position is available in the separately issued IPERS financial report which is available on IPERS’ website at www.ipers.org.

Bond Counsel, Disclosure Counsel, the Issuer, the Underwriter and the Financial Advisor undertake no responsibility for and make no representations as to the accuracy or completeness of the material available from IPERS as discussed above or included on the IPERS website, including, but not limited to, updates of such information on the Auditor of State’s website or links to other websites through the IPERS website.

Property Tax Assessment

In compliance with section 441.21 of the Code of Iowa, as amended, the State Director of Revenue annually directs all county auditors to apply prescribed statutory percentages to the assessments of certain categories of real property. The final values, called Actual Valuation, are then adjusted by the County Auditor. Assessed or Taxable Valuation subject to tax levy is then determined by the application of State determined rollback percentages, principally to residential and commercial property.

Beginning in 1978, the State required a reduction in Actual Valuation to reduce the impact of inflation on its residents. The resulting value is defined as the Assessed or Taxable Valuation. The rollback percentages for residential, agricultural and commercial valuations are as follows:

<u>Fiscal Year</u>	<u>Residential Rollback</u>	<u>Ag. Land & Buildings</u>	<u>Commercial</u>	<u>Multi-Residential</u>
2020-21	55.0743	81.4832	90.0000	71.2500

Property is assessed on a calendar year basis. The assessments finalized as of January 1 of each year are applied to the following fiscal year. For example, the assessments finalized on January 1, 2019 are used to calculate tax liability for the tax year starting July 1, 2020 through June 30, 2021. Presented below are the historic property valuations of the Issuer by class of property.

Largest Taxpayers

Set forth in the following table are the persons or entities which represent the 2019 largest taxpayers within the Issuer, as provided by the Auditors Offices of each of said counties. No independent investigation has been made of and no representation is made herein as to the financial condition of any of the taxpayers listed below or that such taxpayers will continue to maintain their status as major taxpayers in the District. The District’s tax levy is uniformly applicable to all of the properties included in the table, and thus taxes expected to be received by the District from such taxpayers will be in proportion to the assessed valuations of the properties. The total tax bill for each of the properties is dependent upon the tax levies of the other taxing entities which overlap the properties.

⁽¹⁾ **Utility Property Tax Replacement**

Beginning in 1999, the State replaced its previous property tax assessment procedure in valuing the property of entities involved primarily in the production, delivery, service and sale of electricity and natural gas with a replacement tax formula based upon the delivery of energy by these entities. Electric and natural gas utilities now pay replacement taxes to the State in lieu of property taxes. All replacement taxes are allocated among local taxing cities by the State Department of Revenue and Finance and the Department of Management. This allocation is made in accordance with a general allocation formula developed by the Department of Management on the basis of general property tax equivalents. Properties of these utilities are exempt from the levy of property tax by political subdivisions. Utility property will continue to be valued by a special method as provided in the statute and taxed at the rate of three cents per one thousand dollars for the general fund of the State.

The utility replacement tax statute states that the utility replacement tax collected by the State and allocated among local taxing cities (including the Issuer) shall be treated as property tax when received and shall be disposed of by the county treasurer as taxes on real estate. However, utility property is not subject to the levy of property tax by political subdivisions, only the utility replacement tax and statewide property tax. It is possible that the Issuer’s authority to levy taxes to pay principal and interest on the Bonds could be adjudicated to be proportionately reduced in future years if the utility replacement tax were to be other than “taxable property” for purposes of computing the Issuer’s levy limit under Iowa Code Section 298.18, as amended from time to time. There can be no assurance that future legislation will not (i) operate to reduce the amount of debt the Issuer can issue or (ii) adversely affect the Issuer’s ability to levy taxes in the future for the payment of the principal of and interest on its outstanding debt obligations, including the Bonds.

Debt Limit

The amount of general obligation debt a political subdivision of the State of Iowa can incur is controlled by the constitutional debt limit, which is an amount equal to 5% of the actual value of property within the corporate limits, taken from the last County Tax list. The District's debt limit, based upon said valuation, amounts to the following:

1/1/2018 actual Valuation: ⁽¹⁾	837,081,472
X	0.05
<hr/> Statutory Debt Limit:	<hr/> 41,854,074
Total General Obligation Debt:	15,900,000
Total Lease Purchases:	
Total Loan Agreements:	
Capital Leases:	
<hr/> Total Debt Subject to Limit:	<hr/> 15,900,000
Percentage of Debt Limit Obligated:	37.99%

It has not been determined whether the District's Sales Tax Revenue Bonds do or do not count against the constitutional debt limit. If the Bonds do count against the constitutional debt limit, the amount of debt subject to the debt limit would increase \$6,120,000 to be \$22,020,000, or 52.61% of the statutory debt limit.

⁽¹⁾ Utility Property Tax Replacement

Beginning in 1999, the State replaced its previous property tax assessment procedure in valuing the property of entities involved primarily in the production, delivery, service and sale of electricity and natural gas with a replacement tax formula based upon the delivery of energy by these entities. Electric and natural gas utilities now pay replacement taxes to the State in lieu of property taxes. All replacement taxes are allocated among local taxing cities by the State Department of Revenue and Finance and the Department of Management. This allocation is made in accordance with a general allocation formula developed by the Department of Management on the basis of general property tax equivalents. Properties of these utilities are exempt from the levy of property tax by political subdivisions. Utility property will continue to be valued by a special method as provided in the statute and taxed at the rate of three cents per one thousand dollars for the general fund of the State.

It is possible that the general obligation debt capacity of the Issuer could be adjudicated to be proportionately reduced in future years if utility property were determined to be other than "taxable property" for purposes of computing the Issuer's debt limit under Article XI of the Constitution of the State of Iowa. There can be no assurance that future legislation will not (i) operate to reduce the amount of debt the Issuer can issue or (ii) adversely affect the Issuer's ability to levy taxes in the future for the payment of the principal of and interest on its outstanding debt obligations, including the Bonds.

APPENDIX B – FORM OF LEGAL OPINION

We hereby certify that we have examined a certified transcript of the proceedings of the Board of Directors of the Odebolt Arthur Battle Creek Ida Grove Community School District in the Counties of Crawford, Ida, Sac and Woodbury, State of Iowa, and acts of administrative officers of the School District (the "Issuer"), relating to the issuance of General Obligation School Bonds, Series 2020, by said Issuer, dated May 1, 2020, in the denominations of \$5,000 or multiples thereof, in the aggregate amount of \$_____ (the "Bonds").

We have examined the law and certified proceedings and other papers as we deem necessary to render this opinion as bond counsel.

As to questions of fact material to our opinion, we have relied upon representations of the Issuer contained in the Resolution authorizing issuance of the Bonds (the "Resolution") and in the certified proceedings and other certifications of public officials furnished to us, without undertaking to verify the same by independent investigation.

Based on our examination and in reliance upon the certified proceedings and other certifications described above, we are of the opinion, under existing law, as follows:

1. The Issuer is duly created and validly existing as a body corporate and politic and political subdivision of the State of Iowa with the corporate power to adopt and perform the Resolution and issue the Bonds.
2. The Bonds are valid and binding general obligations of the Issuer.
3. All taxable property in the territory of the Issuer is subject to ad valorem taxation without limitation as to rate or amount to pay the Bonds. Taxes have been levied by the Resolution for the payment of the Bonds and the Issuer is required by law to include in its annual tax levy the principal and interest coming due on the Bonds to the extent the necessary funds are not provided from other sources.
4. Interest on the Bonds is excludable from gross income for federal income tax purposes and is not an item of tax preference for purposes of the federal alternative minimum tax. The opinion set forth in the preceding sentence is subject to the condition that the Issuer comply with all requirements of the Internal Revenue Code of 1986, as amended, that must be satisfied subsequent to the issuance of the Bonds in order that the interest thereon be, and continue to be, excludable from gross income for federal income tax purposes. The Issuer has covenanted to comply with all such requirements. Failure to comply with certain of such requirements may cause interest on the Bonds to be included in gross income for federal income tax purposes retroactively to the date of issuance of the Bonds.

We express no opinion regarding the accuracy, adequacy, or completeness of the Official Statement or other offering material relating to the Bonds. Further, we express no opinion regarding tax consequences arising with respect to the Bonds other than as expressly set forth herein.

The rights of the owners of the Bonds and the enforceability of the Bonds are limited by bankruptcy, insolvency, reorganization, moratorium, and other similar laws affecting creditors' rights generally, and by equitable principles, whether considered at law or in equity.

This opinion is given as of the date hereof, and we assume no obligation to revise or supplement this opinion to reflect any facts or circumstances that may hereafter come to our attention, or any changes in law that may hereafter occur.

Section 9. Additional Information. Nothing in this Disclosure Certificate shall be deemed to prevent the Issuer from disseminating any other information, using the means of dissemination set forth in this Disclosure Certificate or any other means of communication, or including any other information in any Annual Financial Information filing or notice of occurrence of a Listed Event, in addition to that which is required by this Disclosure Certificate. If the Issuer chooses to include any information in any Annual Financial Information filing or notice of occurrence of a Listed Event in addition to that which is specifically required by this Disclosure Certificate, the Issuer shall have no obligation under this Certificate to update such information or include it in any future Annual Financial Information filing or notice of occurrence of a Listed Event.

Direct, indirect, consequential and punitive damages shall not be recoverable by any person for any default hereunder and are hereby waived to the extent permitted by law. A default under this Disclosure Certificate shall not be deemed an event of default under the Resolution, and the sole remedy under this Disclosure Certificate in the event of any failure of the Issuer to comply with this Disclosure Certificate shall be an action to compel performance.

Section 11. Duties, Immunities and Liabilities of Dissemination Agent. The Dissemination Agent shall have only such duties as are specifically set forth in this Disclosure Certificate, and the Issuer agrees to indemnify and save the Dissemination Agent, its officers, directors, employees and agents, harmless against any loss, expense and liabilities which it may incur arising out of or in the exercise or performance of its powers and duties hereunder, including the costs and expenses (including attorneys' fees) of defending against any claim of liability, but excluding liabilities due to the Dissemination Agent's negligence or willful misconduct. The obligations of the Issuer under this Section shall survive resignation or removal of the Dissemination Agent and payment of the Bonds.

Section 12. Beneficiaries. This Disclosure Certificate shall inure solely to the benefit of the Issuer, the Dissemination Agent, the Participating

Underwriters and Holders and Beneficial Owners from time to time of the Bonds, and shall create no rights in any other person or entity.

Section 13. Rescission Rights. The Issuer hereby reserves the right to rescind this Disclosure Certificate without the consent of the Holders in the event the Rule is repealed by the S.E.C. or is ruled invalid by a federal court and the time to appeal from such decision has expired. In the event of a partial repeal or invalidation of the Rule, the Issuer hereby reserves the right to rescind those provisions of this Disclosure Certificate that were required by those parts of the Rule that are so repealed or invalidated.

INDEPENDENT AUDITOR'S REPORT

To the Board of Education of Odebolt Arthur Battle Creek Ida Grove Community School District:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Odebolt Arthur Battle Creek Ida Grove (OABCIG) Community School District, Ida Grove, Iowa, as of and for the year ended June 30, 2019, and the related Notes to Financial Statements, which collectively comprise the District's basic financial statements listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles. This includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

The financial statements of the William W. Smith Endowment have not been audited, and we were not engaged to audit the Endowment financial statements as part of our audit of OABCIG Community School District's basic financial statements. The Endowment's financial statements are included in the District's financial statements as a discretely presented component unit. Because we were not engaged to audit the Endowment's financial statements and because we did not apply any auditing procedures to the Endowment's financial statements, we do not express an opinion on the discretely presented component unit.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Qualified Opinion on the Aggregate Discretely Presented Component Unit

The financial statements of the William W. Smith Endowment have not been audited, and we were not engaged to audit the William W. Smith Endowment as part of our audit of the District’s basic financial statements. The William W. Smith Endowment’s financial activities are included in the District’s basic financial statements as a discretely presented component unit.

Qualified Opinion

In our opinion, except for the possible effects of the matter discussed in the “Basis for Qualified Opinion on the Aggregate Discretely Presented Component Unit” paragraph, the financial statements referred to above present fairly in all material respects, the financial position of the aggregate discretely presented component units of OABCIG Community School District as of June 30, 2019, and the changes in financial position thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

Unmodified Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of OABCIG Community School District as of June 30, 2019, and the respective changes in its financial position and, where applicable, its cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require Management’s Discussion and Analysis, the Budgetary Comparison Information, the Schedule of the District’s Proportionate Share of the Net Pension Liability, the Schedule of District Contributions, the Schedule of Changes in the District’s Total OPEB Liability, Related Ratios and Notes and the combining statements for the discretely presented component unit on pages 7 through 15 and 46 through 53 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise OABCIG Community School District's basic financial statements. The supplementary information included in Schedules 1 through 6, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated January 10, 2020 on our consideration of OABCIG Community School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering OABCIG Community School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Odebolt Arthur Battle Creek Ida Grove Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2019. As of July 1, 2018, Odebolt-Arthur Community School District and Battle Creek-Ida Grove Community School District merged to form Odebolt Arthur Battle Creek Ida Grove (OABCIG) Community School District; therefore, much of the information is not easily comparable to prior years. However, in future years, comparisons will be more meaningful and will go further in explaining the District's financial position and results of operations.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Position and a Statement of Activities. These provide information about the activities of OABCIG Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental and business type activities services were financed in the short term as well as what remains for future spending. Fund financial statements report OABCIG Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which OABCIG Community School District acts solely as an agent or custodian for the benefit of those outside of the District.

Notes to Financial Statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year, the District's proportionate share of the net pension liability and related contributions, the Schedule of Changes in the District's Total OPEB Liability, Related Ratios and Notes and the financial statements for the discretely presented component unit.

Supplementary Information provides detailed information about the nonmajor governmental funds.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

REPORTING THE DISTRICT’S FINANCIAL ACTIVITIES

Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District’s assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. All of the current year’s revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District’s net position and how it has changed. Net position is one way to measure the District’s financial health or financial position. Over time, increases or decreases in the District’s net position is an indicator of whether financial position is improving or

deteriorating. To assess the District's overall health, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into three categories:

- *Governmental activities:* Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- *Business type activities:* The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.
- *Component Unit:* This includes the activities of the William W. Smith Endowment. The District receives significant financial benefits from the Foundation although they are legally separate entities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds - not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds or to show that it is properly using certain revenues, such as federal grants.

The District has three kinds of funds:

- 1) *Governmental funds:* Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, the Special Revenue Funds, the Debt Service Fund and the Capital Projects Fund.

The required financial statements for governmental funds include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances.

- 2) *Proprietary funds:* Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's Enterprise Fund, one type of proprietary fund, is the same as its business type activities, but provides more detail and additional information, such as cash flows. The District's Enterprise Fund is the School Nutrition Fund.

The required financial statements for proprietary funds include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Fund Net Position and a Statement of Cash Flows.

- 3) *Fiduciary funds:* The District is the trustee, or fiduciary, for assets that belong to others. These funds include the Private-Purpose Trust Fund.

- Private-Purpose Trust Fund - The District accounts for outside donations for scholarships for individual students in this fund.

The District is responsible for ensuring the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The required financial statements for fiduciary funds include a Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position.

Reconciliations between the government-wide financial statements and the governmental fund financial statements follow the governmental fund financial statements.

Governmental Activities

Revenues for governmental activities were \$13,533,267 and expenses were \$13,416,530 for the year ended June 30, 2019.

The following table presents the total and net cost of the District's major governmental activities: instruction, support services and other expenses, for the year ended June 30, 2019.

Business Type Activities

Revenues for business type activities during the year ended June 30, 2019 were \$576,837 while expenses totaled \$502,053. The District's business type activities include the School Nutrition Fund. Revenues of these activities were comprised of charges for service, federal and state reimbursements, investment income and other general revenues.

INDIVIDUAL FUND ANALYSIS

As previously noted, OABCIG Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds, as well. As the District completed the year, its governmental funds reported combined fund balances of \$5,861,841 compared to \$5,371,704, restated as of July 1, 2018. The primary reason for the increase in combined fund balances was the improvement in the Capital Projects: Physical Plant and Equipment Levy Fund balance.

Governmental Fund Highlights

- The District's General Fund balance increased from \$2,522,534, restated as of July 1, 2018, to \$2,693,556 at June 30, 2019.
- The Management Levy Fund balance decreased from \$1,469,887, restated as of July 1, 2018, to \$1,317,930 at June 30, 2019.
- The Capital Projects Fund balance increased from \$742,993, restated as of July 1, 2018, to \$1,017,349 at June 30, 2019.

Proprietary Fund Highlights

The School Nutrition Fund net position increased from \$193,672, restated as of July 1, 2018, to \$268,456 at June 30, 2019, representing a 38.61% increase.

BUDGETARY HIGHLIGHTS

Over the course of the year, OABCIG Community School District amended its budget two times to reflect additional expenditures for capital projects and unanticipated increases in support services expenditures.

The District's total revenues were \$357,656 more than budgeted revenues, a variance of 2.60%. The most significant variance resulted from the District receiving more from local source revenues than originally anticipated.

Total expenditures were less than budgeted, due primarily to the District's budget for the General Fund. It is the District's practice to budget expenditures at the maximum authorized spending authority for the General Fund. The District then manages or controls General Fund spending through its line-item budget. As a result, the District's certified budget should always exceed actual expenditures for the year.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2019, the District had invested \$12,426,597, net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, audio-visual equipment and transportation equipment. (See Figure A-6) More detailed information about the District's capital assets is presented in Note 5 to the financial statements. Depreciation expense for the year was \$646,240.

The original cost of the District's capital assets was \$23,386,488. Governmental activities accounted for \$23,094,244 with the remainder of \$292,244 in the Proprietary, School Nutrition Fund.

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future:

- Fiscal year 2018-2019 marked the completion of the first year of the merged OABCIG School District. Several financial and staff efficiencies had been realized prior to the merger due to Whole Grade Sharing the previous nine years, however FY 18-19 realized additional general fund savings as the net position increased 3.14%. The District was able to save money on health insurance premiums, legal publications, yearly subscriptions, auditing services, accounting software support, student information service fees, etc. to help the General Fund.
- The District's enrollment increased by 8.88 students in FY 18-19, another good indication of positive growth within the District. This also indicates economic growth in the communities of the District and the area.

 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND
 CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
 TO THE STATEMENT OF ACTIVITIES
 YEAR ENDED JUNE 30, 2019

Change in fund balances - total governmental funds(page 22) \$ 490,137

Amounts reported for governmental activities in the Statement of Activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. These costs are not reported in the Statement of Activities, but they are allocated over the estimated useful lives of the capital assets as depreciation expense in the Statement of Activities. Capital outlay expenditures and depreciation expense in the current year was as follows:

Capital outlay	\$ 1,535,312	
Depreciation expense	<u>(631,073)</u>	904,239

Income surtax receivable is not considered available revenue and is recognized as deferred inflows of resources in the governmental funds. (10,999)

Proceeds from issuing long-term liabilities provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayments of long-term liabilities is an expenditures in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Current year repayments and issues are as follows:

Issued	(1,700,000)	
Repaid	<u>374,000</u>	(1,326,000)

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the governmental funds when due. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due. (18,861)

The current year District IPERS contributions are reported as expenditures in the governmental funds, but are reported as deferred outflows of resources in the Statement of Net Position. 651,091

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds, as follows:

Termination benefits	159,448	
Pension expense	(679,998)	
Total OPEB liability and related expenses	<u>(52,320)</u>	<u>(572,870)</u>

OABCIG COMMUNITY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

(1) Summary of Significant Accounting Policies

Odebolt Arthur Battle Creek Ida Grove (OABCIG) Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve and special education pre-kindergarten. Additionally, the District either operates or sponsors various adult education programs. These courses include remedial education as well as career and technical and recreational courses. The geographic area served includes the Cities of Odebolt, Arthur, Battle Creek and Ida Grove, Iowa, and the predominately agricultural territory in Crawford, Ida, Sac and Woodbury Counties. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, OABCIG Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the District.

These financial statements present OABCIG Community School District (the primary government) and its component unit. The component unit discussed below is included in the District's reporting entity because of the significance of its operational or financial relationship with the District.

Discretely Presented Component Unit - The William W. Smith Endowment was established for the purpose of expanding and improving the physical facilities or equipment used in teaching physical and chemical sciences and mathematics. The William W. Smith Endowment is a legally separate entity with its own board of trustees and accounting records. In accordance with criteria set forth by the Governmental Accounting Standards Board, the Endowment meets the definition of a component unit which should be discretely presented. The Endowment is accounted for as a component unit in these financial statements with the year ending December 31, 2018.

Jointly Governed Organizations - The District participates in a jointly governed organization that provides services to the District but do not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Crawford, Ida, Sac and Woodbury County Assessors' Conference Boards.

B. Basis of Presentation

Government-wide Financial Statements - The Statement of Net Position and the Statement of Activities report information on all of the non-fiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Position presents the District's non-fiduciary assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Net position is reported in the three categories:

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net position results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position consists of net position not meeting the definition of the two preceding categories. Unrestricted net position is often subject to constraints imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest that are restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements - Separate financial statements are provided for governmental, proprietary and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor governmental funds. Combining schedules are also included for the Capital Projects Fund accounts.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other revenues that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

The Management Levy Fund is utilized to account for property tax and other miscellaneous revenues used for the payment of insurance, unemployment and early retirement benefits.

The Capital Projects Fund is utilized to account for all resources used in the acquisition and construction of capital facilities and other capital assets.

The District reports the following nonmajor proprietary fund:

The Enterprise, School Nutrition Fund accounts for the food service operations of the District.

The District also reports the following fiduciary fund which focuses on net position and changes in net position.

The Private Purpose Trust Fund is used to account for assets held by the District under trust agreements which require income earned to be used to benefit individuals through scholarship awards.

C. Measurement Focus and Basis of Accounting

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments, and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure toward restricted fund balance and then to less-restrictive classifications - committed, assigned and then unassigned fund balances.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund is charges to customers for sales and services. Operating expenses for Enterprise Funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Fund Equity/Net Position

The following accounting policies are followed in preparing the financial statements:

Cash, Pooled Investments and Cash Equivalents - The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in the Iowa Schools Joint Investment Trust which is valued at amortized cost and non-negotiable certificates of deposit which are stated at amortized cost.

For purposes of the Statement of Cash Flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, they have a maturity date no longer than three months.

Property Tax Receivable - Property tax in the governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is reported as a deferred inflow of resources in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½% per month penalty for delinquent payments; is based on January 1, 2017 assessed property valuations; is for the tax accrual period July 1, 2018 through June 30, 2019 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April, 2018.

Due from Other Governments - Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

Inventories - Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Capital Assets - Capital assets, which include property, machinery, equipment and intangibles acquired after July 1, 1980 are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Position. Capital assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value. Acquisition value is the price that would have been paid to acquire a capital asset with equivalent service potential. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Reportable capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

Asset Class	Amount
Land	\$ -
Buildings	1,500
Improvements other than buildings	1,500
Intangibles	30,000
Machinery and equipment:	
School Nutrition Fund equipment	500
Other machinery and equipment	1,500

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Buildings	50 years
Improvements other than buildings	5-20 years
Intangibles	2 or more years
Machinery and equipment	3-20 years

Deferred Outflows of Resources - Deferred outflows of resources represent a consumption of net position applicable to a future year(s) which will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources consist of unrecognized items not yet charged to pension and OPEB expense, the unamortized portion of the net difference between projected and actual earnings on pension plan investments and contributions from the District after the measurement date but before the end of the District's reporting period.

Salaries and Benefits Payable - Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which is payable in July and August, have been accrued as liabilities.

Advances from Grantors - Grant proceeds which have been received by the District but will be spent in a succeeding fiscal year.

Unearned Revenues - Unearned revenues are monies collected for lunches that have not yet been served. The lunch account balances will either be reimbursed or served lunches. The lunch account balances are reflected on the Statement of Net Position in the Proprietary, School Nutrition Fund.

Long-term Liabilities - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Position.

Pensions - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Iowa Public Employees' Retirement System (IPERS) and additions to/deductions from IPERS' fiduciary net position have been determined on the same basis as they are reported by IPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The net pension liability attributable to the governmental activities will be paid primarily by the General Fund.

Total OPEB Liability - For purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB and OPEB expense, information has been determined based on the District's actuary report. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. The total OPEB liability attributable to the governmental activities will be paid primarily by the General Fund while the portion attributable to the business type activities will be paid primarily by the Enterprise, School Nutrition Fund.

Deferred Inflows of Resources - Deferred inflows of resources represent an acquisition of net position applicable to a future year(s) which will not be recognized as an inflow of resources (revenue) until that time. Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources consist of property tax receivable and other receivables not collected within sixty days after year end.

Deferred inflows of resources in the Statement of Net Position consists of unrecognized items not yet charged to pension and OPEB expense.

Fund Equity - In the governmental fund financial statements, fund balances are classified as follows:

Restricted - Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Assigned - Amounts the Board intends to use for specific purposes.

Unassigned - All amounts not included in the preceding classifications.

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information.

The District has pledged future statewide sales, services and use tax revenues to repay the \$1,895,000 of bonds issued July 2012, \$4,300,000 of bonds issued July 2015 and the \$1,700,000 of bonds issued July 2018. The bonds are not a general obligation of the District. However, the debt is subject to the constitutional debt limitation of the District. Annual principal and interest payments on the bonds are expected to require approximately 67% of the statewide sales, services and use tax revenues. The total principal and interest remaining to be paid on the bonds is \$7,636,710. For the current year, \$374,000 in principal and \$142,667 in interest was paid on the bonds and total statewide sales, services and use tax revenues were \$1,003,357.

(7) Pension Plan

Plan Description - IPERS membership is mandatory for employees of the District, except for those covered by another retirement system. Employees of the District are provided with pensions through a cost-sharing multiple employer defined benefit pension plan administered by Iowa Public Employees' Retirement System (IPERS). IPERS issues a stand-alone financial report which is available to the public by mail at P.O. Box 9117, Des Moines, Iowa 50306-9117 or at www.ipers.org.

IPERS benefits are established under Iowa Code chapter 97B and the administrative rules thereunder. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general information purposes only. Refer to the plan documents for more information.

Pension Benefits - A Regular member may retire at normal retirement age and receive monthly benefits without an early-retirement reduction. Normal retirement age is age 65, any time after reaching age 62 with 20 or more years of covered employment, or when the member's years of service plus the member's age at the last birthday equals or exceeds 88, whichever comes first. These qualifications must be met on the member's first month of entitlement to benefits. Members cannot begin receiving retirement benefits before age 55. The formula used to calculate a Regular member's monthly IPERS benefit includes:

- A multiplier based on years of service.
- The member's highest five-year average salary, except members with service before June 30, 2012 will use the highest three-year average salary as of that date if it is greater than the highest five-year average salary.

If a member retires before normal retirement age, the member's monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned before July 1, 2012, the reduction is 0.25% for each month that the member receives benefits before the member's earliest normal retirement age. For service earned on or after July 1, 2012, the reduction is 0.50% for each month that the member receives benefits before age 65.

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member's lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July 1990 receive a guaranteed dividend with their regular November benefit payments.

Disability and Death Benefits - A vested member who is awarded federal Social Security disability or Railroad Retirement disability benefits is eligible to claim IPERS benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement, the member's beneficiary will receive a lifetime annuity or a lump-sum payment equal to the present actuarial value of the member's accrued benefit or calculated with a set formula, whichever is greater. When a member dies after retirement, death benefits depend on the benefit option the member selected at retirement.

Contributions - Contribution rates are established by IPERS following the annual actuarial valuation, which applies IPERS' Contribution Rate Funding Policy and Actuarial Amortization Method. State statute limits the amount rates can increase or decrease each year to 1 percentage point. IPERS Contribution Rate Funding Policy requires that the actuarial contribution rate be determined using the "entry age normal" actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability payment based on a 30-year amortization period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll, based on the Actuarial Amortization Method adopted by the Investment Board.

In fiscal year 2019, pursuant to the required rate, Regular members contributed 6.29% of covered payroll and the District contributed 9.44% of covered payroll, for a total rate of 15.73%.

The District's contributions to IPERS for the year ended June 30, 2019 totaled \$666,419.

Net Pension Liability, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At June 30, 2019, the District reported a liability of \$5,896,324 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to IPERS relative to the contributions of all IPERS participating employers. At June 30, 2018, the District's proportion was 0.093175%, which was an increase of 0.000834% from the combined proportions of the former Odebolt-Arthur and Battle Creek-Ida Grove Community School Districts measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized pension expense of \$697,798. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 32,329	133,267
Changes of assumptions	841,147	-
Net difference between projected and actual earnings on IPERS' investments	-	162,012
Changes in proportion and differences between District contributions and the District's proportionate share of contributions	122,179	203,407
District contributions subsequent to the measurement date	666,419	-
Total	<u>\$ 1,662,074</u>	<u>498,686</u>

\$666,419 reported as deferred outflows of resources related to pensions resulting from the District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	Amount
2020	\$ 382,772
2021	194,837
2022	(70,149)
2023	(7,404)
2024	(3,087)
Total	<u>\$ 496,969</u>

There were no non-employer contributing entities at IPERS.

Actuarial Assumptions - The total pension liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Rate of inflation (effective June 30, 2017)	2.60% per annum.
Rates of salary increase (effective June 30, 2017)	3.25 to 16.25% average, including inflation. Rates vary by membership group.
Long-term investment rate of return (effective June 30, 2017)	7.00% compounded annually, net of investment expense, including inflation.
Wage growth (effective June 30, 2017)	3.25% per annum, based on 2.60% inflation and 0.65% real wage inflation.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an economic assumption study dated March 24, 2017 and a demographic assumption study dated June 28, 2018.

Mortality rates used in the 2018 valuation were based on the RP-2014 Employee and Healthy Annuitant Tables with MP-2017 generational adjustments.

The long-term expected rate of return on IPERS' investments was determined using a building-block method in which best-estimate ranges of expected future real rates (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Asset Allocation	Long-Term Expected Real Rate of Return
Domestic equity	22.0%	6.01%
International equity	15.0	6.48
Global smart beta equity	3.0	6.23
Core plus fixed income	27.0	1.97
Public credit	3.5	3.93
Public real assets	7.0	2.91
Cash	1.0	(0.25)
Private equity	11.0	10.81

Discount Rate - The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the contractually required rate and that contributions from the District will be made at contractually required rates, actuarially determined. Based on those assumptions, the IPERS' fiduciary net position was projected to be available to make all projected future benefit payments to current active and inactive employees. Therefore, the long-term expected rate of return on IPERS' investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate 1% lower (6.00%) or 1% higher (8.00%) than the current rate.

	1% Decrease (6.00%)	Discount Rate (7.00%)	1% Increase (8.00%)
District's proportionate share of the net pension liability	\$ 10,007,245	5,896,324	2,447,871

IPERS' Fiduciary Net Position - Detailed information about IPERS' fiduciary net position is available in the separately issued IPERS financial report which is available on IPERS' website at www.ipers.org.

Payables to IPERS - At June 30, 2019, the District reported payables to IPERS of \$82,376 for legally required District contributions and \$54,888 for legally required employee contributions withheld from employee wages which had not yet been remitted to IPERS.

(8) Other Postemployment Benefits (OPEB)

Plan Description - The District administers a single-employer benefit plan which provides medical and prescription drug benefits for employees, retirees and their spouses. Group insurance benefits are established under Iowa Code Chapter 509A.13. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

OPEB Benefits - Individuals who are employed by the District and are eligible to participate in the group health plan are eligible to continue healthcare benefits upon retirement. Retirees under age 65 pay the same premium for the medical and prescription drug benefits as active employees, which results in an implicit rate subsidy and an OPEB liability. The former Odebolt-Arthur Community School District had previously offered contributions to health insurance premiums as part of an early retirement benefit which resulted in a direct subsidy and an OPEB liability.

Retired participants must be age 55 or older at retirement. At June 30, 2019, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	5
Active employees	<u>145</u>
Total	<u><u>150</u></u>

Total OPEB Liability - The District's total OPEB liability of \$979,566 was measured as of June 30, 2019, and was determined by an actuarial valuation as of that date.

Actuarial Assumptions - The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions and the entry age normal actuarial cost method, applied to all periods included in the measurement.

Rate of inflation (effective June 30, 2019)	2.60% per annum.
Rates of salary increase (effective June 30, 2019)	3.25-16.25% variable based on years of service, including inflation.
Discount rate (effective June 30, 2019)	3.50% compounded annually, including inflation.
Healthcare cost trend rate (effective June 30, 2019)	7.00% initial rate decreasing by 0.25% annually to an ultimate rate of 4.00%

Discount Rate - The discount rate used to measure the total OPEB liability was 3.50% which reflects the index rate for 20-year tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher as of the measurement date.

Pre-retirement mortality rates are from the RP-2000 Employee Mortality Table, projected generationally using Scale AA. Post-retirement mortality rates are from the RP-2000 Healthy Annuitant Mortality Table, projected generationally using Scale AA. Annual retirement probabilities are based on varying rates by age and turnover probabilities mirror those used by IPERS.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience studies with dates corresponding to those listed above.

(9) Risk Management

OABCIG Community School District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

(10) Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the Area Education Agency. The District's actual amount for this purpose totaled \$424,911 for the year ended June 30, 2019 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

(11) Categorical Funding

In accordance with Iowa Administrative Code Section 98.1, categorical funding is financial support from the state and federal governments targeted for particular categories of students, special programs, or special purposes. This support is in addition to school district or area education agency general purpose revenue, for purposes beyond the basic educational program and most often has restrictions on its use. Any portion of categorical funding provided by the state that is not expended by the end of the fiscal year must be carried forward as a restricted fund balance.

The following is a schedule of the categorical funding restricted in the General Fund at June 30, 2019.

OABCIG COMMUNITY SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION - BUDGETARY REPORTING
YEAR ENDED JUNE 30, 2019

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparison for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Private Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on a GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of Iowa also provides District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. During the year, the District adopted two budget amendments, increasing budgeted expenditures by \$2,700,000.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION- PENSION LIABILITY
YEAR ENDED JUNE 30, 2019

Changes of benefit terms:

Legislation enacted in 2010 modified benefit terms for Regular members. The definition of final average salary changed from the highest three to the highest five years of covered wages. The vesting requirement changed from four years of service to seven years. The early retirement reduction increased from 3% per year measured from the member's first unreduced retirement age to a 6% reduction for each year of retirement before age 65.

Changes of assumptions:

The 2018 valuation implemented the following refinements as a result of a demographic assumption study dated June 28, 2018:

- Changed mortality assumptions to the RP-2014 mortality tables with mortality improvements modeled using Scale MP-2017.
- Adjusted retirement rates.
- Lowered disability rates.
- Adjusted the probability of a vested Regular member electing to receive a deferred benefit.
- Adjusted the merit component of the salary increase assumption.

The 2017 valuation implemented the following refinements as a result of an experience study dated March 24, 2017:

- Decreased the inflation assumption from 3.00% to 2.60%.
- Decreased the assumed rate of interest on member accounts from 3.75% to 3.50% per year.
- Decreased the discount rate from 7.50% to 7.00%.
- Decreased the wage growth assumption from 4.00% to 3.25%.
- Decreased the payroll growth assumption from 4.00% to 3.25%.

The 2014 valuation implemented the following refinements as a result of a quadrennial experience study:

- Decreased the inflation assumption from 3.25% to 3.00%.
- Decreased the assumed rate of interest on member accounts from 4.00% to 3.75% per year.
- Adjusted male mortality rates for retirees in the Regular membership group.
- Moved from an open 30-year amortization period to a closed 30-year amortization period for the UAL (unfunded actuarial liability) beginning June 30, 2014. Each year thereafter, changes in the UAL from plan experience will be amortized on a separate closed 20-year period.

The 2010 valuation implemented the following refinements as a result of a quadrennial experience study:

- Adjusted retiree mortality assumptions.
- Modified retirement rates to reflect fewer retirements.
- Lowered disability rates at most ages.
- Lowered employment termination rates.
- Generally increased the probability of terminating members receiving a deferred retirement benefit.
- Modified salary increase assumptions based on various service duration.

Independent Auditor's Report on Internal Control
over Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in Accordance with
Government Auditing Standards

To the Board of Education of Odebolt Arthur Battle Creek Ida Grove Community School District:

We have audited in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Odebolt Arthur Battle Creek Ida Grove (OABCIG) Community School District as of and for the year ended June 30, 2019, and the related Notes to Financial Statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 10, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered OABCIG Community School District's internal control over financial reporting to determine the audit procedures appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of OABCIG Community School District's internal control. Accordingly, we do not express an opinion on the effectiveness of OABCIG Community School District's internal control.

A deficiency in internal control exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify a certain deficiency in internal control, described in Part I of the accompanying Schedule of Findings as item I-A-19 that we consider to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether OABCIG Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However, we noted certain immaterial instances of non-compliance or other matters which are described in Part II of the accompanying Schedule of Findings.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2019 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

OABCIG Community School District's Responses to Findings

OABCIG Community School District's responses to the findings identified in our audit are described in the accompanying Schedule of Findings. OABCIG Community School District's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of OABCIG Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

OABCIG COMMUNITY SCHOOL DISTRICT
SCHEDULE OF FINDINGS
YEAR ENDED JUNE 30, 2019

Part I: Findings Related to the Financial Statements:

INSTANCES OF NON-COMPLIANCE:

No matters were noted.

INTERNAL CONTROL DEFICIENCIES:

I-A-19 Segregation of Duties

Criteria - Management is responsible for establishing and maintaining internal control. A good system of internal control provides for adequate segregation of duties so no one individual handles a transaction from its inception to completion. In order to maintain proper internal control, duties should be segregated so the authorization, custody, and recording of transactions are not under the control of the same employee. This segregation of duties helps prevent losses from employee error or dishonesty and maximizes the accuracy of the District's financial statements.

Condition - One important aspect of the internal control structure is the segregation of duties among employees to prevent an individual employee from handling duties which are incompatible. One individual has control over one or more of the following areas for the District:

- 1) Cash - initiating cash disbursement transactions and handling and recording cash.
- 2) Investments - investing, detailed recordkeeping, custody of investments and reconciling earnings.
- 3) Receipts - collecting, receipting, depositing, journalizing, posting and reconciling.
- 4) Wire transfers - processing and approving.
- 5) Payroll - recordkeeping, preparation, posting and distribution.
- 6) Computer systems - performing all general accounting functions and controlling all data input and output.
- 7) School lunch program - collecting, recording, journalizing, posting, reconciling, purchase order processing, check preparation, mailing and recording.
- 8) Financial reporting - preparing, reconciling and approving.
- 9) Journal entry - writing, posting and approving.

Cause - The District has a limited number of employees and procedures have not been designed to adequately segregate duties or provide compensating controls through additional oversight of transactions and processes.

Effect - Inadequate segregation of duties could adversely affect the District's ability to prevent or detect and correct misstatements, errors, or misappropriation on a timely basis by employees in the normal course of performing their assigned functions.

Recommendation - We realize that with a limited number of office employees, segregation of duties is difficult. However, the District should review its control procedures to obtain the maximum internal control possible under the circumstances.

Response - The District will investigate available alternatives. The District is constantly evaluating duties of central office staff and trying to cross train on many of those duties.

Conclusion - Response accepted.

OABCIG COMMUNITY SCHOOL DISTRICT
SCHEDULE OF FINDINGS
YEAR ENDED JUNE 30, 2019

Part II: Other Findings Related to Required Statutory Reporting:

II-A-19 Certified Budget - District disbursements for the year ended June 30, 2019 did not exceed the certified budgeted amounts.

II-B-19 Questionable Disbursements - We noted during our audit instances of the District paying sales tax on purchases made with District credit cards. The District is a tax-exempt entity, therefore, expenditures for sales tax would not appear to meet public purpose as defined in an Attorney General's opinion dated April 25, 1979.

Recommendation - The District should review their purchasing and reimbursing procedures currently in place and make the necessary adjustments to comply with the Attorney General's opinion dated April 25, 1979.

Response - The administration and staff were notified of this finding and steps have been implemented to avoid paying sales tax on future credit card orders.

Conclusion - Response accepted.

II-C-19 Travel Expense - No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

II-D-19 Business Transactions - Business transactions between the District and District officials or employees are detailed as follows:

Name, Title and Business Connection	Transaction Description	Amount
Kim Wunschel, Paraeducator Father inlaw owns Wunschel Service	Fuel	\$ 1,641
Mike Iversen, Bus Driver Owns Iversen TV	Services/supplies	\$ 1,029

In accordance with an Attorney General's opinion dated November 9, 1976, the above transactions with the relative of a District employee do not appear to represent a conflict of interest.

In accordance with an Attorney General's opinion dated July 2, 1990, the above transactions with the District employee do not appear to represent a conflict of interest.

II-E-19 Bond Coverage - Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure the coverage is adequate for current operations.

II-F-19 Board Minutes - We noted no transactions requiring Board approval which have not been approved by the Board.

II-G-19 Certified Enrollment - No variances in the basic enrollment data certified to the Iowa Department of Education were noted.

- II-H-19 Supplementary Weighting - No variance regarding the supplementary weighting certified to the Iowa Department of Education were noted.
- II-I-19 Deposits and Investments - No instances of non-compliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy were noted.
- II-J-19 Certified Annual Report - The Certified Annual Report was filed with the Department of Education timely and we noted no significant deficiencies in the amounts reported.
- II-K-19 Categorical Funding - No instances were noted of categorical funding being used to supplant rather than supplement other funds.
- II-L-19 Statewide Sales, Services and Use Tax - No instances of non-compliance with the allowable uses of the statewide sales, services and use tax revenue provided in Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales, services and use tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2019, the District reported the following information regarding the statewide sales, services and use tax revenue in the District's CAR:

Beginning balance, as restated		\$ 249,356
Revenues:		
Sales tax revenues	\$ 1,003,357	
Other local revenues	3,150	
Sale of long-term debt	1,700,000	<u>2,706,507</u>
		2,955,863
Expenditures/transfers out:		
School infrastructure construction	1,981,971	
Transfers to other funds:		
Debt service fund	680,482	<u>2,662,453</u>
Ending balance		<u>\$ 293,410</u>

For the year ended June 30, 2019, the District did not reduce any levies as a result of the moneys received under Chapter 423E or 423F of the Code of Iowa.

- II-M-19 Payroll Authorization - We noted during our audit the District does not maintain the written authorization to mail employees' payroll checks. Chapter 91A.3 of the Code of Iowa requires that an employer have a written request from an employee before wages can be sent to an employee by mail.

Recommendation - The District should maintain written authorization from each employee who desires to receive a payroll check by mail.

Response - The district has obtained written authorization from the one employee (substitute) who receives a payroll check by mail.

Conclusion - Response accepted.

II-N-19 Student Activity Fund - In accordance with 298A.8 of the Code of Iowa and Iowa Administrative Code 281-12.6(1), the purpose of the Student Activity Fund is to account for financial transactions related to the cocurricular and extracurricular activities offered as a part of the education program for students. During the course of our audit, we noted that the FFA Club awarded a scholarship and that amount was then moved to the Private Purpose Trust Fund.

Recommendation - It is inappropriate to use the Student Activity Fund as a clearing account for other funds. When money is raised, it should be raised for a specific purpose and deposited into the fund that can legally expend the money. If money is raised for scholarships it should be receipted directly into the Private Purpose Trust Fund.

Response - The district will deposit designated scholarship funds raised from the annual FFA fruit sale directly into the Private Purpose Trust Fund.

Conclusion - Response accepted.
